# October 2024 April 2025 Application Guidelines

## Doctoral Programs Yokohama National University

## **Graduate School of Engineering Science**

#### How to Apply

All applicants must send a set of all required documents by post after applying online.

1. Required environment for the application

In order to complete the application procedure, applicants need PCs connected to the Internet, printers and their own email address.

2. Overview of the Application Procedure

Step 1 – Register

- 1) Visit YNU Web Application System; https://e-apply.jp/e/ynu/
- 2) Select the preferred Department, etc. according to the guidance of the window.
- 3) Register your name, e-mail address, and other personal information.
- 4) You will receive a confirmation email after registration procedure is completed.

#### Step 2 – Apply online

- 1) Log in to YNU Web Application System, and fill in all the required information.
- 2) Select payment method for your application fee after you apply.
- 3) Pay the application fee as your choice.
- 4) After you have received an email that your payment was confirmed, print out all the documents via the YNU Web Application System.

#### Step 3 – Submission of the application documents

- 1) Send all the printed-out application documents and other required certificates by post in the designated application period.
- 2) Application procedure is only completed when YNU received all required documents by post.

Note: You <u>must</u> submit printed-out documents by post in order to complete the application. Only filling out the online application is not enough to successfully complete the application procedure.

Please read the instructions of this application guideline and the YNU Web Application System carefully.

#### Introduction

This booklet provides application guidelines for admission to doctoral programs at the Graduate School of Engineering Science of Yokohama National University in October 2024 and April 2025.

Prospective students are requested to carefully read this extensive booklet, find the information that pertains to them, and apply with the correct procedures based on an accurate understanding.

File an application after close consultation with your intended supervisor or with faculty members serving as contact persons in Table 1 (see page 5).

Go to the website of the Graduate School of Engineering Science, Yokohama National University to find out about the school and see research conducted by each faculty member.

https://www.fse.ynu.ac.jp/index.html

#### [Security export control]

Pursuant to the Foreign Exchange and Foreign Trade Act, Yokohama National University (YNU) stipulates YNU Regulations for Security Export Control to rigorously screen admission of international students with respect to exported goods, technical assistance, and people-to-people exchange. Accordingly, some international students may have limited access to research and educational programs despite their preference. Be aware of such restrictions and consult with your intended supervisor prior to filing your application. All enrolled students, regardless of nationality, are requested to sign a pledge to comply with the Foreign Exchange and Foreign Trade Act. For more details, visit the following website of the YNU's Research Initiatives and Promotion Organization.

https://www.ripo.ynu.ac.jp/researcher/start/security/

#### [Handling of personal information]

Personal information will be handled under the Act on the Protection of Personal Information and the Policies on the Protection of Personal Information held by YNU.

- (1) Personal information provided in the applicant's entrance examination results and application materials may also be used for the following purposes in addition to those related to the selection of applicants for admission to YNU.
- ① Contacting successful applicants (sending materials related to welfare benefits such as scholarships and insurance, events after admission, and Co-op) and enrollment procedures.
- ② Organizing classes after enrollment and sending materials related to welfare such as entrance fee waiver (except for international students) and tuition fee waiver upon application by the applicant.
- 3 Academic affairs after enrollment (student registration management, academic guidance, etc.)
- Public relations, surveys and research at the university (including surveys and analysis for the improvement of admission selection methods and university education)

⑤ Personal information of enrolled students may be provided to the extent necessary for enrollment procedures for the YNU Alumni Association.

When presenting the results of surveys and research, the information will be processed in such a way that individuals cannot be identified.

Personal information will not be used or provided for any other purposes.

(2) When using the information in the various works described in (1) above, some of the operations may be performed by a contractor entrusted by YNU. All or part of the personal information obtained will be provided to the contractor to the extent necessary to perform the work entrusted to the contractor.

#### [Student Dormitory]

Those who wish to move into the dormitories should check the application guide on the Student Dormitories page of the Student Support Division website of the Academic Affairs and International Strategy Department and complete the application procedures within the time frame.

https://www.gakuseisupport.ynu.ac.jp/

#### [IMPORTANT]

The selection method may be modified due to any changes in unforeseen circumstances related to natural disasters, man-made disasters, epidemics etc. As for the latest information, please visit the "Admissions" page on the Graduate School's website (https://www.fse.ynu.ac.jp/english/index.html) regularly.

Note on terminology: In these admission guidelines, "master's program" refers to the first two years of a graduate program and "doctoral program" refers to the last three years of a graduate program.

#### **Screening process**

Assessment of eligibility (only if necessary)

Monday, May 13 – Wednesday, May 15, 2024

**Online Application** 

Friday, May 24 - Tuesday, June 4, 2024

Application period by post

Friday, May 31 - Thursday, June 6, 2024

**Examination** 

Wednesday, August 21 - Thursday, August 22, 2024

Announcement of successful applicants
Thursday, September 5, 2024

**Admission** 

[Admission in October 2024]

Friday, September 6 – Thursday, September 12, 2024 [Admission in April 2025]

Wednesday, March 5 - Monday, March 10, 2025

Table 1 Faculty members to consult with regarding respective specializations.

Department	Unit/ Specialization	Contact persons
	Mechanical Engineering / Mechanical Engineering, Energy Materials	Associate Prof. FUCHIWAKI Ohmi fuchiwaki-ohmi-xk@ynu.ac.jp
Mechanical Engineering, Materials Science, and Ocean Engineering	Materials Science Frontier/ Materials Science Frontier, Energy Materials	Associate Prof. OONO Naoko oono-naoko-yh@ynu.ac.jp
	Systems Design for Ocean-Space/ Systems Design for Ocean-Space	Associate Prof HIRAKAWA Yoshiaki hirakawa-yoshiaki-jd@ynu.ac.jp
Chemistry and Life	Advanced Chemistry/ Chemistry, Applied Chemistry, Energy Materials	Associate Prof. UBUKATA Takashi ubukata-takashi-wy@ynu.ac.jp
Science	Chemistry Applications and Life Science/ Chemistry Applications and Life Science, Energy Materials	Associate Prof. MATSUZAWA Koichi matsuzawa-koichi-zs@ynu.ac.jp
	Mathematical Sciences/ Mathematical Sciences	Prof. KAJIWARA Takeshi kajiwara-takeshi-rj@ynu.ac.jp
Mathematics, Physics, Electrical Engineering and Computer Science	Physics/ Physics	Associate Prof. NAKAMURA Shogo nakamura-shogo-zg@ynu.ac.jp
	Electrical and Computer Engineering/ Applied Physics, Information Systems, Electrical and Computer Engineering	Associate Prof. OYA Takahide oya-takahide-vx@ynu.ac.jp

<sup>\*</sup> Units are categories for conducting entrance examinations. Admitted students are assigned to one of the above specializations.

<sup>\*</sup> Before filing your application, consult with the faculty member in charge of your desired field of study or faculty members serving as contact persons.

#### I. Admission Guidelines for General Students

#### 2. Eligibility

Eligibility is acknowledged for applicants with any of the following profiles:

- (1) Applicants awarded master's degrees or professional degrees, or expected to be awarded the same prior to admission to our graduate school
- (2) Applicants awarded degrees in countries other than Japan that are comparable to master's degrees or professional degrees, or expected to be awarded the same prior to admission to our graduate school
- (3) Applicants awarded degrees that are comparable to master's degrees or professional degrees after taking correspondence courses offered by foreign schools while in Japan, or expected to be awarded the same prior to admission to our graduate school
- (4) Applicants who have completed or are expected to complete (prior to admission to our graduate school) programs specified by the Minister of Education, Culture, Sports, Science and Technology among educational facilities that are recognized as graduate schools according to the school education systems of other countries and awarded degrees that are comparable to master's degrees or professional degrees, or expected to be awarded the same prior to admission to our graduate school
- (5) Applicants who completed courses offered by the United Nations University and awarded degrees that are comparable to master's degrees or expected to be awarded the same prior to admission to our graduate school
- (6) Applicants who graduated from colleges or were awarded bachelor's degrees pursuant to Paragraph 7, Article 104 of the School Education Act (National Institution for Academic Degrees and Quality Enhancement of Higher Education), engaged in at least two years of research at universities or research institutes, and whose academic achievements evaluated based on the research outcomes are acknowledged by our graduate school to be comparable or superior to holders of master's degrees
- (7) Applicants who have completed 16 years of their school education in other countries, or completed 16 years of their school education in other countries by taking correspondence courses offered by foreign schools while in Japan, engaged in at least two years of research at universities or research institutes, and whose academic achievements evaluated based on the research outcomes are acknowledged by our graduate school to be comparable or superior to holders of master's degrees

- (8) Applicants whose academic achievements were assessed individually by our graduate school and are acknowledged to be comparable or superior to holders of master's degrees or professional degrees, and who will reach age 24 by the time they enroll in our graduate school
- [Note 1] Under no circumstances will eligibility be acknowledged for applicants who do not satisfy the above requirements.
- [Note 2] Eligibility (8) is acknowledged for applicants whose books, theses, presentations, reports, patents, and other achievements are acknowledged to be comparable or superior to master's theses, and who reaches age 24 by the enrollment to our graduate school.
- [Note 3] Applicants wishing to claim Eligibility (6)— (8) must first undergo an eligibility assessment. Consult with a faculty member of your desired field and submit the following documents in an envelope to the Graduate School of Engineering Science Section **between Monday, May 13 and Wednesday, May 15, 2024**. Application documents are accepted by post or directly at the section office as long as they meet the deadline.

(The section office is open from 9:00 a.m. until 5:00 p.m. except for a break from 12:45 p.m. to 1:45 p.m.)

Necessary designated forms should be downloaded from the Graduate School's website.

#### [Documents submitted by applicants claiming Eligibility (6) or (7)]

- [1] Detailed statement of application documents (Attachment 1)
- [2] Application for certificate of eligibility (Form 10)
- [3] Eligibility Accreditation Record (Form 13)
- [4] Record of Research Achievements (Form 16)
- [5] (Desired) Research Plan (Form 17)
- [6] Diploma from the most recently completed educational level
- [7] Transcript from the most recently completed educational level
- [8] An addressed return envelope (Size-L3) with a 354 yen stamp for express mail

#### [Documents submitted by applicants claiming Eligibility (8)]

- [1] Detailed statement of application documents (Attachment 1)
- [2] Application for certificate of eligibility (Form 12)
- [3] Eligibility Accreditation Record (Form 13)
- [4] Certificate of (expected) graduation or enrollment period from the most recent educational level
- [5] Transcript from the most recently completed educational level
- [6] Record of Research Achievements (Form 16)
- [7] (Desired) Research Plan (Form 17)
- [8] An addressed return envelope (Size-L3) with 354 yen worth of stamps for express mail

The eligibility assessment is conducted by the Graduate School of Engineering Science, Yokohama National University. The result is delivered by post on **Monday, May 27, 2024**. If your eligibility is recognized, proceed by applying within the specified period. If you have any questions, contact the Graduate School of Engineering Science Section.

#### Advancement to doctoral programs on recommendation

Students at the Graduate School of Engineering Science, YNU who are expected to earn master's degrees prior to admission to our graduate school and wish to advance to doctoral programs on recommendation from the Graduate School of Engineering Science should make sure to consult with their

supervisors and faculty members serving as contact persons in Table 1 (see page 5) no later than **Friday**, **May 10, 2024**.

The decision on eligibility for advancement to doctoral programs on recommendation will be communicated to the applicants through their supervisors on or after <u>Friday</u>, <u>May 24, 2024</u>. Applicants whose eligibility is recognized are requested to submit the "Statement for advancement to doctoral program on recommendation" to be provided later, Label 1 for a return envelope [Form 31] provided by our school (write your name, address, postal code, and attach a 400-yen express mail stamp), and Label 2 for a return envelope [Form 32] (write your name, address, and postal code) to the Graduate School of Engineering Science Section between Friday, May 31 and Thursday, June 6, 2024.

Letters of acceptance will be delivered by post to successful applicants on <u>Thursday</u>, <u>September 5</u>, <u>2024</u>.

#### 3. Application procedure

After applying online, enclose the application documents (Please see below 4) in a Size-2 envelope (24 cm × 33.2 cm). Download the label for filing an application (Form 30) from YNU Web Application System. Attached the filled-out label to the envelope and send it via registered mail from the post office window.

#### 3-1. Online Application

The online application form must be completed during the period <u>between Friday, May 24, and Tuesday,</u> June 4, 2024.

YNU Web Application System URL: https://e-apply.jp/e/ynu/

[Note]

- 1) Please note that an error message will show if there is no transmission for 60 minutes.
- 2) To temporarily suspend the input work in the Web application system, click "Save temporarily" Please log out. After re-logging in, input can be resumed. Other methods Input operation will be canceled if you interrupt the input work with.
- 3) If you have any questions about YNU Web Application System, please contact the following.

Career-tasu, Inc. Learning and Education Application Service Support Center

TEL: 0120-202079 (Reception time: <u>from Monday to Friday</u>, 10:00 - 18:00)

Email: cvs-web@career-tasu.co.jp

Only filling out the online application is not enough to successfully complete the application procedure. Send all the application forms printed out and other required materials by post. Please see below 3-2 to 4.

#### 3-2. Application by post

Submit your application documents by registered mail <u>between Friday, May 31 and Thursday, June 6, 2024.</u>

Applications are only accepted by registered mail and only during the application period. No direct applications are accepted, nor is application by email.

Send your application as early as possible keeping in mind the time required for delivery by the postal service lest it reach us after the deadline and be rejected. As an exception, an application sent by **registered express mail that is postmarked by the originating post office by Wednesday, June 5, 2024** will be accepted even if it reaches us after the deadline.

[Note 1] Some post offices do not provide postal services on Saturdays, Sundays, and holidays. Make sure to check the schedule of your local post office.

- [Note 2] Applicant who lives in abroad should send application documents by post through representative who lives in Japan. In the case of sending documents from abroad as needed, please send by recorded mail such as EMS (Express Mail Service) to reach us no later than <u>June</u> 6, 2024. [by due date without fail] However, return address is only in Japan.
- [Note 3] We accept the application documents at the reception counter only through academic supervisor who gave provisional acceptance letter to applicant who lives in abroad.

#### 3-3. Address for filing an application

Graduate School of Engineering Science Section Yokohama National University 79-5 Tokiwadai, Hodogaya-ku, Yokohama, 240-8501 JAPAN

#### 4. Application documents

Necessary designated forms should be downloaded from the YNU Web Application System and the Graduate School's website. Be sure to print them only on <u>one side</u> of <u>white A4-sized paper</u>.

Application	Note	
documents	11000	number

Master's thesis with abstract	Submit your master's thesis or another thesis as a substitute (1 copy), and an abstract about 2,000 Japanese characters or 500 English words long (1 copy).  Applicants expecting to complete master's programs are requested to provide a summary of their research project and the progress made in about 2,000 Japanese characters.	
Record of Research Achievements	Print out the form after downloading it from the Graduate School's website. List your published papers and research achievements (1.Title of the academic paper, research report, patent, etc. 2.Date of publication or presentation, 3.Name of the publisher, the magazine in which the finding was reported, the academic conference at which the finding was presented, etc. 4.Name of the coauthor or co-presenter Remarks). Attach supplemental material if available.	16 * G
(Desired) Research Plan	Print out the form after downloading it from the Graduate School's website. Submit your (desired) research plan for your doctoral program up to 500 words. Consult with your prospective academic supervisor before submitting.	17 * G
Entrance application fee	Amount: 30,000 yen Payment period: Make the payment by Tuesday, June 4, 2024 Payment method According to payment guide of YNU Web Application system, please pay the application fee. For details of payment method, please see below.  YNU Web Application system  → introduction→ Application Fee  (1) Applicants living in Japan  [Payment at a convenience store]  (Payments can only be made through Seven Eleven, Lawson, Ministop, FamilyMart, and Circle K Sunkus.)  Make a payment using an information terminal in a store.  (Payments cannot be made from an ATM. Make the payment at a cash register.)	

Payments can be made by credit card (VISA, MasterCard, JCB, American Express, MUFG, DC, UFJ, and NICOS) and online with China UnionPay.

[Note 1] Applications will not be accepted without payment of the entrance application fee.

[Note 2] All charges involved are to be covered by the applicants.

[Note 3] Payments are not required from applicants who are expected to complete master's programs or professional degrees programs at graduate schools of our university by the month before admission to our graduate school, nor from Japanese government-financed (MEXT) international students (enclose the original government sponsorship certificate in the application; copies are not acceptable).

\* Waiver of entrance application fee for affected people in the area subject to the Disaster Relief Act and the like YNU waives the entrance application fee for applicants affected by disasters to ensure they have the opportunity to seek admission. For more details, please visit our website (https://www.ynu.ac.jp/exam/).

#### \*G The Graduate School's website

#### **\*Y YNU Web Application System**

[Note] Exemption from submission of certain documents

Applicants with Eligibility (6)–(8) do not need to resubmit certificates and other documents submitted for gaining certificates of eligibility.

#### 5. Admission ticket for examination

We inform you by e-mail that we have officially accepted the application by <u>Wednesday</u>, <u>June 19</u>, <u>2024</u>. In accordance with the notes stated in the e-mail, please login to the YNU Web Application System and print out the Admission ticket for examination. Please attach the same photo as the photo attached to the Application for admission on the printed Admission ticket and bring it on the examination day. You <u>must</u> not write anything on both the front and the back of your admission ticket.

#### 6. Screening method and schedule

Screening is based on academic achievement tests (English as a foreign language, academic subject, and oral) and review of application documents. English proficiency is evaluated based on the score from an English proficiency test (either TOEIC or TOEFL). Applicants who miss either the examination on academic subjects or oral examination, or if they fail to submit valid TOEIC or TOEFL score certificates will not be admitted.

- (1) Academic achievement tests
  - (A) Examination on academic subjects

Applicants must answer questions related to their intended fields of research.

(B) Oral examination

In the oral examination, questions will be asked regarding each applicant's master's thesis or another equivalent thesis (research abstract in case of applicants expecting to complete master's program), intended research plan for the doctoral program, and their specialization. Ask your intended supervisor for any instructions for taking the oral examination.

#### (2) Subject and date of academic achievement test

Date	Subject	Score	Remarks
-	English	100	Screening is based on original score certificates of TOEIC or TOEFL.
Wednesday, August 21	Academic subject	400	10:30–12:30
Wednesday, August 21 to Thursday, August 22	Oral examination	400	The date and venue for the examination will be specified when the assigned examination rooms are announced (see 6 (3)).

- Examinees must enter their assigned rooms 20 minutes prior to their examinations.
- Score certificates of TOEIC or TOEFL(For details, see below "(4) Screening by written examinations: TOEIC and TOEFL scores ".) are collected during the examination on academic subjects.
- Language dictionaries (electronic dictionaries are not acceptable) may be used for academic exams only.
- Applicants may use only Japanese or English in their answers in the academic subjects and interviews.
- (3) Venue

Academic achievement tests are conducted on the campus of Yokohama National University in Tokiwadai, Hodogaya-ku, Yokohama.

• Room assignment will be posted on YNU Web Application System by Friday, August 2, 2024.

#### (4) Screening by written examinations: TOEIC and TOEFL scores

The score certificates from the following tests are reviewed in the examination.

Examined test	Score certificate to be submitted	Official website
TOEIC Listening & Reading Test (public test)	Official Score Certificate	TOEIC (https://www.iibc-global.org/english/toeic/test/lr.html)
TOEFL-iBT (Including Home Edition and Paper Edition)	Test Taker Score Report  Examinee Score Report	TOEFL (https://www.ets.org/toefl.html)

<sup>\*1 &</sup>lt;u>Performance in TOEIC Bridge, TOEIC Speaking & Writing Test, TOEFL-PBT or institutional testing programs such as TOEIC IP and TOEFL ITP is not acknowledged.</u>

- \*2 For TOEIC Listening & Reading Test (public test), the Digital Official Score Certificate with QR codes are also accepted. In this case, please submit a printout of your TOEIC the Digital Official Score Certificate. We verify their authenticity using the QR code displayed on the Digital Official Score Certificate.
- \*3 Score certificates from TOEFL need to be submitted on the date of the examination. Our university does not accept any score certificates sent directly from ETS.

- O Submit a score certificate from TOEIC or TOEFL on the day of your examination (Original only, no copies are accepted except in the case of \*2 above. The same rule applies elsewhere.). Score certificates are collected during the examination on academic subjects.
- O Submit an original score certificate from a test taken in the last two years counting from the date of submission and must include a photograph of the applicant. (However, for the entrance examinations listed in this Guideline, score certificates submitted within two years of the last day of the application period are also valid.). Applicants who submit invalid score certificates or fail to submit certificates at the designated time during the examination will not be admitted.
- 【About TOEFL score】 Graduate School of Engineering Science does not recognize "My Best Scores" written on "Test Taker Score Report".
- TOEIC and TOEFL scores are converted according to the following tables into a scale of 100 points and are counted as the examination on foreign language (English).

#### [Conversion method for TOEIC scores]

TOEIC	Conversion method	Foreign language (English)
349 points or less	0	0 points
350–500 points	(TOEIC – 350) / 3	0–50 points
500–800 points	(TOEIC - 500) / 6 + 50	50–100 points
801 points or more		100 points

#### [Conversion methods for TOEFL-iBT]

TOEFL- iBT	Foreign language (English)	TOEFL- iBT	Foreign language (English)	TOEFL- iBT	Foreign language (English)	TOEFL- iBT	Foreign language (English)	TOEFL- iBT	Foreign language (English)
~90	100	76	84	63~62	66	51	47	41	18
89	99	75~74	82	61	64	50~49	43	40	15
88	98	73 <b>~</b> 72	80	60~59	63	48	40	39	12
87~86	96	71	78	58	61	47	38	38	7
85~84	95	70~69	75	57	59	46	34	37~36	2
83	92	68	74	56	56	45	31	35 <b>~</b>	0
82~81	90	67 <b>~</b> 66	73	55~54	55	44	28		
80~79	88	65	71	53	53	43	24		
78 <b>~</b> 77	87	64	68	52	51	42	21		

- O Scores are rounded to the nearest whole number.
- O Submitted score certificates will not be returned to applicants.

#### 7. Announcement of successful applicants

#### Thursday, September 5, 2024 around 4:00 p.m.

Acceptance letters are sent to successful applicants by post. In addition, registration numbers of successful applicants are posted on the website of the Graduate School of Engineering Science (https://www.fse.ynu.ac.jp/index.html).

[Note 1] The acceptance letter is the sole document entailing our official acceptance.

[Note 2] We do not respond to any inquiries regarding the outcome of the examination via phone calls and so forth.

#### 8. Required payments for admission

#### Admission fee 282,000 yen (current amount)

[Note 1] Payment should be made during the admission period (Friday, September 6 – Thursday September 12, 2024 (for admission in October 2024) and Wednesday, March 5 – Monday, March 10, 2025 (for admission in April 2025)). Necessary documents for the admission procedure are sent around mid-September 2024 (for admission in October 2024) and mid-February 2025 (for admission in April 2025).

### Applicants who do not complete the necessary procedures during the admission period will be considered to have withdrawn from admission.

- [Note 2] The amount of the admission fee and tuition (Annual tuition→535,800 yen) are subject to change.
- [Note 3] Any change in the amount of tuition while a student is enrolled will take effect from the moment the change is introduced.
- [Note 4] Admission fee is not required from applicants who have completed master's programs or professional degrees programs at graduate schools of our university by the month before admission to our graduate school, nor from Japanese government-financed (MEXT) international students.

#### 9. Prior consultation by applicants who need special consideration for their examination or studies

Prior to application, any applicants with physical or mental disabilities who require special consideration for their examination or studies must declare that fact to the Graduate School of Engineering Science Section using the form below.

Applicants who experienced accidents or unexpected trouble must also immediately declare any need for special consideration for their examination or studies.

Please contact us if you are not sure what classification applies to your situation.

#### [How to apply]

- (1) Prepare your application by following the example below and attach a copy of a medical certificate or physical disability certificate, and another supporting document.
- (2) Consult with us as early as possible before filing your application as it may take time for us to make accommodations for your request depending on its nature.
- (3) Place of submission and inquiry

Graduate School of Engineering Science Section, Yokohama National University 79-5 Tokiwadai, Hodogaya-ku, Yokohama, 240-8501 JAPAN

Phone: +81-45-339-3817

(Form) A4 vertical

Date (YYYY/MM/DD):

Att.: Yokohama National University

Name in *katakana*:

Name:

Date of birth:

Address:

Phone:

I hereby request consultation regarding my impairment before applying for admission to Yokohama National University.

- 1. Intended specialization, unit, department, and school
- 2. Type and degree of physical impairment
- 3. Requested special consideration for taking the examination
- 4. Requested special consideration for studies after enrollment
- 5. Special consideration made by the school where the applicant was enrolled
- 6. Other

(Attachment) Copy of medical certificate or physical disability certificate, and another supporting document

#### 10. Reminders

- (1) Inadequately prepared application documents may be rejected.
- (2) No changes may be introduced to documents already submitted for the application procedure.
- (3) Application documents are not retuned.
- (4) Entrance application fees are not refundable except in the following circumstances.

Contact the Graduate School of Engineering Science Section to find out how to ask for a refund.

- A. An application was not filed after payment of the entrance application fee (application documents were not submitted or accepted).
- B. Payment of the entrance application fee was made twice by mistake.
- \* Refunds are made after deduction of processing fees.
- (5) Enrollment may be cancelled even after admission if false statements on application documents come to light.
- (6) Please use the Joyo Kanji characters as much as possible. If you use non-Joyo Kanji characters, the computer may not be able to recognize your name. In such cases, the name may be replaced by a different Kanji character from the one registered on the application form on the acceptance notification and the admission letter.
- (7) Depending on your performance in the entrance examination, you may not be assigned to your desired specialization, educational program or supervisor. Consider your other choice.
- (8) Diplomas and transcripts submitted by applicants may be examined by a certification organization specified by YNU at the applicants' expense when YNU deems it necessary to have a third party authenticate them.
- (9) In order to obtain the status of residence as "student," international students must have sufficient financial resources to sustain their life on campus.
- (10) Any changes related to the entrance examination will be notified to applicants along with announcements on the website of the Graduate School of Engineering Science.
- (11) Always carry your admission ticket for examination on the day of examination.
- (12) Applicants are not admitted if they fail to take the assigned examinations on academic subjects, the oral examination, or if they fail to submit valid TOEIC or TOEFL score certificates.

- (13) Switch off your mobile phones and other devices and put them in your bag before entering your examination room.
- (14) The following acts are considered as fraudulent. In case of misconduct, the exam would be immediately terminated, and he/she would be expelled from the exam hall. No further exams will be permitted.
  - In addition, the result of exams that have already been taken will be invalidated.
  - ① Cheating. Furthermore, helping other examinees cheat by providing the assistance.
  - ② Opening the question booklet and beginning to answer before the start of the exam. Furthermore, holding a pencil or continuing to answer questions without following the instructions to end the exam.
  - 3 Taking the question booklet and answer sheet out of the exam room during the exam.
  - 4 Using electronic devices such as mobile phones, smart phones, wearable terminals, tablet terminals, earphones, etc. and auxiliary tools such as rulers, dictionaries, etc. during the exam. \*Excluding those for which use is permitted
- (15) The following acts may be considered as fraudulent. If fraudulent activity is recognized, the treatment is the same as (14) above.
  - Wearing or holding in the hand ,without storing in your bag, of electric devices such as mobile phones, smartphones, wearable devices, tablets, earphones, and other electronic devices, rulers, dictionaries, and other aids during the exam. \*Excluding those for which use is permitted
  - 2 Doing the conduct that disturbs other examinees in the exam hall, exam room, or waiting room.
  - 3 Not following the instructions of supervisors, etc. in the exam hall, exam room, or waiting room.
  - 4 Doing any other conduct that may impair the fairness of the exam.
- (16) Employees of public offices or companies need to obtain written approval of enrollment (free form) from their directors or representatives. Prepare such documents in advance of the enrollment procedures.
- (17) The admission fee is not refunded after the enrollment procedure under any circumstances.
- (18) Many students admitted to our graduate school make use of economic assistance programs, such as admission fee (excluding international students) and tuition waivers, and scholarship programs.

#### II. Admission Guidelines for Special Screening of Professionals

#### 1. Purpose

The Graduate School of Engineering Science strives to cultivate doctors who can take the reins of original technological development thanks to their extensive and adaptable knowledge, creativity, and international mindset. True to this purpose, our school is open to society and the world. In addition to the admission of Japanese and international students, special screenings have been put in place for engineers, researchers, and other professionals with adequate expertise and academic achievements to advance to our doctoral programs so that they can pursue even more advanced research and earn doctoral degrees. A special exception is made for educational systems under the Standards for Establishment of Graduate Schools to facilitate studies by professionals.

File an application after close consultation with your desired supervisor.

#### 2. Number of students admitted

#### [Admission in October 2024] and [Admission in April 2025]

Department Unit*		Specialization	Educational program	Number of students admitted	
	Mechanical	Mechanical Engineering	TED or PED		
Mechanical	Engineering	Energy Materials	TED		
Engineering, Materials Science, and Ocean	Materials Science	Materials Science Frontier	TED or PED	of students	
Engineering	Frontier	Energy Materials	TED

'	Engineering	Electrical and			
*II.'	C 1 4	Computer Engineering			

<sup>\*</sup> Units are categories for conducting entrance examinations. Admitted students are assigned to one of the specializations.

#### 3. Eligibility

Engineers, researchers, or other professionals who have worked for more than two years in the same company or entity as a regular employee prior to enrolling in our university, or those who retain their position in their company or entity, are recommended for their excellent professional achievements, and satisfy at least one of the following conditions:

- (1) Applicants awarded master's degrees or professional degrees, or expected to be awarded the same prior to admission to our graduate school
- (2) Applicants awarded degrees in countries other than Japan that are comparable to master's degrees or professional degrees, or expected to be awarded the same prior to admission to our graduate school
- (3) Applicants awarded degrees that are comparable to master's degrees or professional degrees after taking correspondence courses offered by foreign schools while in Japan, or expected to be awarded the same prior to admission to our graduate school
- (4) Applicants who have completed or are expected to complete (prior to admission to our graduate school) programs specified by the Minister of Education, Culture, Sports, Science and Technology among educational facilities that are recognized as graduate schools according to the school education systems of other countries and awarded degrees that are comparable to master's degrees or professional degrees, or expected to be awarded the same prior to admission to our graduate school
- (5) Applicants who graduated from colleges or were awarded bachelor's degrees pursuant to Paragraph 7, Article 104 of the School Education Act (National Institution for Academic Degrees and Quality Enhancement of Higher Education), engaged in at least two years of research at universities or research institutes, and whose academic achievements evaluated based on the research outcomes are acknowledged by our graduate school to be comparable or superior to holders of master's degrees
- (6) Applicants who have completed 16 years of their school education in other countries, or completed 16 years of their school education in other countries by taking correspondence courses offered by foreign schools while in Japan, engaged in at least two years of research at universities or research institutes, and whose academic achievements evaluated based on the research outcomes are acknowledged by our graduate school to be comparable or superior to holders of master's degrees
- [Note 1] Under no circumstances will eligibility be acknowledged for applicants who do not satisfy the above requirements.
- [Note 2] The eligibility of each professional applying for the special admission is assessed before the special screening. Consult with faculty members of your desired field of study and submit the following documents (enclosed in any envelope) to the Graduate School of Engineering Science Section between <a href="Monday, May 13">Monday, May 13</a> and <a href="Wednesday, May 15">Wednesday</a>, <a href="May 15">May 15</a>, <a href="2024">2024</a>. Applications are accepted both via postal mail or directly at the section office provided that they are delivered by the deadline.

(The section office is open from 9:00 a.m. to 5:00 p.m., except for the hours between 12:45 p.m. and 1:45 p.m.)

Necessary designated forms should be downloaded from the Graduate School's website.

- [1] Detailed statement of application documents (Annex 1)
- [2] Application for certificate of eligibility (Form 11)
- [3] Eligibility Accreditation Record (Form 13)
- [4] Diploma from the most recently completed educational level
- [5] One of the following sets of documents depending on the eligibility:
  - a. **Professionals in service**: Approval of examination and recommendation letter prepared by the supervisor or equivalent at the employer
  - **b. Persons with relevant working experience**: Certificate of research or professional assignments
- [6] Record of Research Achievements (Form 16)
- [7] (Desired) Research Plan (Form 17)
- [8] An addressed return envelope (Size-L3) with a 354-yen stamp for express mail

Applicants claiming eligibility (5) or (6) must undergo further assessment for eligibility in addition to the above assessment. In addition to the documents required for the eligibility assessment for special screening of professionals, enclose the following documents in an envelope and submit them to the Graduate School of Engineering Science Section between <u>Monday, May 13 and Wednesday, May 15, 2024</u>. Applications are accepted both via postal mail or directly at the section office provided that they are delivered by the deadline.

- [9] Application for certificate of eligibility (Form 10)
- [10] Transcript from the most recently completed educational level

The eligibility assessment is conducted by the Graduate School of Engineering Science, Yokohama National University. The result is delivered by post on <u>Monday, May 27, 2024</u>. If your eligibility is recognized, proceed by applying within the specified period.

If you have any questions, contact the Graduate School of Engineering Science Section.

#### 4. Application procedure

After applying online, enclose the application documents (Please see below 4) in a Size-2 envelope (24 cm × 33.2 cm). Download the label for filing an application (Form 30) from YNU Web Application System. Attached the filled-out label to the envelope and send it via registered mail from the post office window.

#### 4-1. Online Application

[Note]

The online application form must be completed during the period <u>between Friday, May 24 and</u> Tuesday, June 4, 2024.

YNU Web Application System URL: https://e-apply.jp/e/ynu/

- 1) Please note that an error message will show if there is no transmission for 60 minutes.
- 2) To temporarily suspend the input work in the Web application system, click "Save temporarily" Please log out. After re-logging in, input can be resumed. Other methods Input operation will be canceled if you interrupt the input work with.
- 3) If you have any questions about YNU Web Application System, please contact the following. Career-tasu, Inc. Learning and Education Application Service Support Center

TEL: 0120-202079 (Reception time: <u>from Monday to Friday</u>, 10:00 - 18:00)

Email: cvs-web@career-tasu.co.jp

Only filling out the online application is not enough to successfully complete the application procedure. Send all the application forms printed out and other required materials by post. Please see below 4-2 to 5.

#### 4-2. Application by post

Submit your application documents by registered mail <u>between Friday, May 31 and Thursday, June 6, 2024.</u>

Applications are only accepted by registered mail and only during the application period. No direct applications are accepted, nor is application by email.

Send your application as early as possible keeping in mind the time required for delivery by the postal service lest it reach us after the deadline and be rejected. As an exception, an application sent by registered express mail that is postmarked by the originating post office by Wednesday, June 5, 2024 will be accepted even if it reaches us after the deadline.

- [Note 1] Some post offices do not provide postal services on Saturdays, Sundays, and holidays. Make sure to check the schedule of your local post office.
- [Note 2] Applicant who lives in abroad should send application documents by post through representative who lives in Japan. In the case of sending documents from abroad as needed, please send by recorded mail such as EMS (Express Mail Service) to reach us no later than **June 6, 2024**. [by due date without fail] However, return address is only in Japan.
- [Note 3] We accept the application documents at the reception counter only through academic supervisor who gave provisional acceptance letter to applicant who lives in abroad.

#### 4-3. Address for filing an application

Graduate School of Engineering Science Section Yokohama National University 79-5 Tokiwadai, Hodogaya-ku, Yokohama, 240-8501 JAPAN

#### 5. Application procedure

Necessary designated forms should be downloaded from the YNU Web Application System and the Graduate School's website. Be sure to print them only on **one side** of **white A4-sized paper**.

Application documents	Note	
Detailed statement of application documents	Print out the form after downloading it from the Graduate School's website. Enclose the application documents in the order listed in this form.	Annex 2 *G
Application for admission	Print out the form through YNU Web Application System after filling in all the required information(your name, address, phone#, educational history, Preferred Department, Unit, Specialization, Program, Academic supervisor, etc.)  Attach one 4-cm by 3-cm upper body shot taken in the last 3 months on a solid-color background without any headwear to your application. [Note] Please attach the same photo as the photo attached to the Application for admission on the printed Admission ticket (Please see	1-1 *Y

	below 6).	
Certificate of (expected) completion	To be prepared by the president or dean of the school where the applicant was or is enrolled.  - If a copy of a diploma is used as a substitute, the original must be	
	presented for verification at the Graduate School of Engineering Science Section.  - International students are required to submit the certificate of degree	
(compression) compression	or a document stating a degree (except for applicants claiming Eligibility 1).  - Any certificate written in a language other than Japanese or English	
	must be accompanied by a Japanese or English translation.	
Transcript	To be prepared by the president or dean of the school where the applicant was or is enrolled.  Any certificate written in a language other than Japanese or English	
	must be accompanied by a Japanese or English translation.	
Certificate of resident status (only international	Foreign residents of Japan are requested to submit copies of both sides of their resident cards. Other foreigners are requested to submit	
students)	copies of their passports.	
Curriculum Vitae of international student	Print out the form through YNU Web Application System after	19-1
(only international students)	applying online. (excluding applicants claiming Eligibility 1)	*Y
Provisional	Print out the form after downloading it from the Graduate	
Acceptance Letter	School's website. The submitted letter needs to be signed by your	19-2
(only international	prospective supervisor. The signature does not necessarily have to be a	*G
students)	handwritten original.	
	Submit your master's thesis or another thesis (thesis showing research	
Master's thesis or	results so far) as a substitute (1 copy), and an abstract about 2,000	
another thesis, and	Japanese characters or 500 English words long (1 copy). Applicants	
abstract	expecting to complete master's programs are requested to provide a summary of their research project and the progress made in about 2,000 Japanese characters.	
	Amount: 30,000 yen	
	Payment period: Make the payment by Tuesday, June 4, 2024 Payment method	
	According to payment guide of YNU Web Application system, please pay the application fee. For details of payment method, please see below.	
Entrance application fee	YNU Web Application system  → introduction→ Application Fee	
	(1) Applicants living in Japan [Payment at a convenience store] (Payments can only be made through Seven Eleven, Lawson, Ministop, FamilyMart, and Circle K Sunkus.) Make a payment using an information terminal in a store. (Payments cannot be made from an ATM. Make the payment at a cash register.)	

(2) Applicants living outside Japan

Payments can be made by credit card (VISA, MasterCard, JCB, American Express, MUFG, DC, UFJ, and NICOS) and online with China UnionPay.

[Note 1] Applications will not be accepted without payment of the entrance application fee.

[Note 2] All charges involved are to be covered by the applicants.

[Note 3] Payments are not required from applicants who are expected to complete master's programs or professional degrees programs at graduate schools of our university by the month before admission to our graduate school, nor from Japanese government-financed (MEXT) international students (enclose the original government sponsorship certificate in the application; copies are not acceptable).

\* Waiver of entrance application fee for affected people in the area subject to the Disaster Relief Act and the like YNU waives the entrance application fee for applicants affected by disasters to ensure they have the opportunity to seek admission. For more details, please visit our website (https://www.ynu.ac.jp/exam/index.html).

#### \*G The Graduate School's website

#### **\*Y** YNU Web Application System

[Note] Exemption from submission of certain documents

Documents that have already been submitted for the application for certificate of eligibility do not need to be submitted again.

#### 6. Admission ticket for examination

We inform you by e-mail that we have officially accepted the application by <u>Wednesday</u>, <u>June 19</u>, <u>2024</u>. In accordance with the notes stated in the e-mail, please login to the YNU Web Application System and print out the Admission ticket for examination. Please attach the same photo as the photo attached to the Application for admission on the printed Admission ticket and bring it on the examination day. You <u>must not</u> write anything on both the front and the back of your admission ticket.

#### 7. Screening method

Screening is based on a review of the application documents and interviews (i.e., oral examinations regarding specialized subjects, master's thesis, research achievements, research plan, etc.). No applicants who miss interviews will be admitted. Ask your intended supervisor for instructions regarding the interview.

#### 8. Interview schedule and venue

(1) Interview

Date	Examination method	Remarks
Wednesday, August 21 to Thursday, August 22	Interview	The time and venue for the examination will be specified when the assigned examination rooms are announced (see 8(2))

<sup>-</sup> Examinees must enter their assigned rooms 20 minutes prior to their interviews.

#### (2) Interview venue

Interviews are conducted on the YNU Campus (Tokiwadai, Hodogaya-ku, Yokohama).

Interviews are selectable "face-to-face on the campus" or "Online".

YNU decide which to choose in line with applicants wishes.

Assigned rooms for interviews are announced on YNU Web Application System **by Friday, August 2, 2024**.

#### 9. Announcement of successful applicants

#### Thursday, September 5, 2024 around 4:00 p.m.

Acceptance letters are sent to successful applicants. In addition, registration numbers of successful applicants are posted on the website of the Graduate School of Engineering Science.

[Note 1] The acceptance letter is the sole document entailing our official acceptance.

[Note 2] We do not respond to any inquiries regarding the outcome of the examination via phone calls and so forth.

#### 10. Required payments for admission

#### Admission fee 282,000 yen (current amount)

[Note 1] Payment should be made during the admission period (Friday, September 6 – Thursday September 12, 2024 (for admission in October 2024) and Wednesday, March 5 – Monday, March 10, 2025 (for admission in April 2025)). Necessary documents for the admission procedure are sent around mid-September 2024 (for admission in October 2024) and mid-February 2025 (for admission in April 2025).

### Applicants who do not complete the necessary procedures during the admission period will be considered to have withdrawn from admission.

- [Note 2] The amount of the admission fee and tuition (Annual tuition→535,800 yen) are subject to change.
- [Note 3] Any change in the amount of tuition while a student is enrolled will take effect from the moment the change is introduced.
- [Note 4] Admission fee is not required from applicants who have completed master's programs or professional degrees programs at graduate schools of our university by the month before admission to our graduate school, nor from Japanese government-financed (MEXT) international students.

#### 11. Prior consultation by applicants who need special consideration for

#### their examination or studies

Prior to application, any applicants with physical or mental disabilities who require special consideration for their examination or studies must declare that fact to the Graduate School of Engineering Science Section using the form below.

Applicants who experienced accidents or unexpected trouble must also immediately declare any need for special consideration for their examination or studies.

Please contact us if you are not sure what classification applies to your situation.

#### [How to apply]

- (1) Prepare your application by following the example below and attach a copy of a medical certificate or physical disability certificate, and another supporting document.
- (2) Consult with us as early as possible before filing your application as it may take time for us to make accommodations for your request depending on its nature.
- (3) Place of submission and inquiry

#### **III. Overview of Doctoral Programs**

#### 1. Purpose of Education and Research at our Graduate School

The Graduate School of Engineering Science at YNU aspire to serve as an international hub of practical science. The effort is led by the Graduate School of Engineering Science, which aims to foster globally competitive scientists and engineers who have sound ethics and enterprising spirits to learn beyond their areas of expertise. We hope to further strengthen and develop the manufacturing industry and other industries by nurturing people who are well-versed in both science and engineering.

The doctoral programs at the Graduate School of Engineering Science produce professionals who can conduct leading-edge research on the issues that they have identified and apply solutions that they have found based on broad perspectives. At the same time, they are expected to exercise great communication skills in the society to drive forward the development of science and industries. Graduates are expected to lead further innovation as creative and highly specialized professionals.

#### 2. Description of Departments and Profile of Graduates

#### 2.1 Department of Mechanical Engineering, Materials Science, and Ocean Engineering

In this department, education will be conducted in mechanical, material, naval architecture and ocean, and aerospace engineering based on analyses of physical phenomena from micro to macro levels. Research conducted in this department addresses: basic science technologies to comprehensively design advanced systems from micromachines to large structures; production and processing methods for the development of functions and structural materials that maintain the balance with the global environment by applying the mechanical properties of solid materials and theories on the origins of various properties; and systems for using marine space through microengineering for marine energy use and for designing mobile objects and structures. In this manner, the department produces globally-competitive, practical, and creative engineers and researchers who can be leaders in their area of research.

#### 2.1.1 Specializations

The Department of Mechanical Engineering, Materials Science, and Ocean Engineering covers the following four specializations. The awarded degree and offered programs are listed next to each specialization.

- Mechanical Engineering: Doctor (Engineering), T-type Engineering Degree (TED) Program, or Pi-type Engineering Degree (PED) Program
- Materials Science Frontier: Doctor (Engineering), T-type Engineering Degree (TED) Program, or Pi-type Engineering Degree (PED) Program
- Systems Design for Ocean-Space: Doctor (Engineering), T-type Engineering Degree (TED) Program, or Pi-type Engineering Degree (PED) Program

#### 2.1.2 Education Programs

Two different types of education programs are offered at the Department of Mechanical Engineering, Materials Science, and Ocean Engineering to obtain degrees in the specializations listed in the previous section.

• T-type Engineering Degree (TED) Program (in Mechanical Engineering, Materials Science Frontier, Systems Design for Ocean-Space, and Energy Materials)

The TED program in mechanical engineering welcomes students with a Master's level expertise in mechanical engineering or related fields of aerospace engineering who seek to become creative researchers and engineers with the excellent ability to construct advanced machines and mechanical systems. The program in materials science frontier welcomes students with a Master's level expertise in material engineering and science, or related fields of aerospace engineering who are interested in advanced research and technologies related to material mechanics and processing, material strength and structure, material function and composition, or material physics and chemistry. The program in systems design for ocean-space welcomes students with a Master's level expertise in naval architecture and ocean engineering or related fields of aerospace engineering who are keen to apply advanced technologies for using marine space and for combining basic technologies. In the field of energy materials education, those who have specialized knowledge at the early doctoral level in materials engineering or mechanical engineering, and who are advanced and advanced in either the strength and microstructure of materials used in energy equipment or the function and structure of materials We are looking for student who are interested in research and technology.

• Pi-type Engineering Degree (PED) Program (in Mechanical Engineering, Materials Science Frontier, and Systems Design for Ocean-Space)

The PED program in Mechanical Engineering welcomes students with a Master's level expertise in mechanical engineering or related fields of aerospace engineering who seek to gain practical skills and work globally and independently as practitioners and researchers while addressing issues involving mechanical engineering. The program in Materials Science Frontier welcomes students with a Master's level expertise in material engineering and science or related fields of aerospace engineering who are interested in advanced and practical research and technologies involving material mechanics and processing, material strength and structure, material function and composition, or material physics and chemistry. The program in Systems Design for Ocean-Space welcomes students with a Master's level expertise in naval architecture and ocean engineering or related fields of aerospace engineering who are keen to engage in practical and technical challenges involved in the planning, construction, and operation of devices for using marine space.

#### 2.2 Department of Chemistry and Life Science

Molecules and solid materials as aggregates of atoms, and organic materials as aggregates of molecules,

exhibit very different functions depending on their electronic structures, types of atoms and molecules, and their arrangements. Therefore, the clarification of the interrelation between structures and exhibited functions is vital to material chemistry. The most crucial task for producing and using materials efficiently with minimum environmental load is to establish efficient production systems for new materials by effectively harnessing the chemical energy of materials and integrating a wide range of information. In order to tackle global problems related to food, life, medicine, and so forth, it is essential to unravel and apply life phenomena. This department provides opportunities to develop molecules and materials that exhibit new functions, devise new processes for producing and using them, and unravel and apply life phenomena. In this manner, the department cultivates creative professionals who can identify challenges involving materials and life, and effectively address them with due consideration to the global environment.

#### 2.2.1 Specializations

The Department of Chemistry and Life Science covers the following four specializations. The awarded degree and offered programs are listed next to each specialization.

- Chemistry: Doctor (Science), Professional Science Degree (PSD) Program
- Applied Chemistry: Doctor (Engineering), T-type Engineering Degree (TED) Program
- Chemistry Applications and Life Science: Doctor (Engineering), T-type Engineering Degree (TED) Program, or Pi-type Engineering Degree (PED) Program
- Energy Materials: Doctor (Engineering), T-type Engineering Degree (TED) Program

#### 2.2.2 Education Programs

Three different types of education programs are offered at the Department of Chemistry and Life Science to obtain degrees in the specializations listed in the previous section.

## • T-type Engineering Degree (TED) Program (in Applied Chemistry, Chemistry Applications and Life Science, and Energy Materials)

The program requires advanced knowledge in inorganic chemistry, analytical chemistry, physical chemistry, organic chemistry, and other essential fields related to materials, as well as in material engineering, energy chemistry, catalytic chemistry, polymer chemistry, biochemistry, chemical engineering, bioengineering, and so forth. Students will develop molecules and materials that produce new functions; develop processes for producing and using them; unravel and apply life phenomena; and identify challenges involving materials and life forms and effectively solve them with due consideration to the global environment. The program welcomes students who have both advanced research and development skills in chemistry, energy chemistry, bio and life science, and related fields, and the ability to make flexible and comprehensive judgments to address unknown problems based on their broad perspectives.

#### • Pi-type Engineering Degree (PED) Program (in Chemistry Applications and Life Science)

The program requires advanced knowledge in essential fields related to substances and materials, as well as material engineering, chemical engineering, bioengineering, bioengineering, bioengineering, and so forth. The program

cultivates skills involved in the invention and manufacturing of advanced materials and in the advanced research and development of energy chemistry, and bio and life science. It also cultivates the ability to solve unknown problems by making flexible and comprehensive judgements based on broad perspectives and to integrate basic knowledge in the formation of applied technologies. The engineering education offered in this program is aimed at developing highly practical skills in chemical engineering, energy chemistry, material engineering, bio and life science, and related fields. Students are expected to integrate their knowledge, experience, technologies, and insights to set a new direction and lead future industries.

#### • Professional Science Degree (PSD) Program (in Chemistry)

In this program, students study designing principles and synthetic methods of molecules and materials and learn about chemical phenomena and properties in order to develop advanced skills for making scientific research in the fields of chemistry, including inorganic chemistry, analytical chemistry, physical chemistry, organic chemistry, catalytic chemistry, polymer chemistry, electrochemistry, and biochemistry. The additional studies in material engineering, catalytic engineering, bioengineering, and application of chemistry and life sciences to engineering are intended to build their engineering basics in chemistry. The integrated style of education produces highly capable and globally-competitive professionals in the scientific community and industries who can conduct scientific research, as well as contribute to the development of crucial materials for the next generation based on an understanding of basic science in terms of physics.

[Note] Applicants for admission to the "Field of Energy Materials Education" in the Department of Mechanical Engineering, Materials Science, and Ocean Engineering and the Department of Chemical and Life Science should consult carefully with their academic advisor or the faculty member in charge of inquiries regarding their field of study before submitting their application documents.

#### 2.3 Department of Mathematics, Physics, Electrical Engineering and Computer Science

Similar to the master's programs, the doctoral programs at the Department of Mathematics, Physics, Electrical Engineering and Computer Science requires broad familiarity and interdisciplinary knowledge in mathematical science, physics, and other basic sciences, as well as their engineering application. By engaging in the world's leading researches, these doctoral programs deepen the knowledge gained in the master's programs and help students take initiatives in the creation and development of science and industries in the fields of mathematical science, physics, applied physics, as well as electrical, electronic, communication, information, and medical information engineering. In this manner, the programs produce leading researchers and engineers who can creatively address challenges faced by the knowledge-based and information-driven society that is going through a radical change.

#### 2.3.1 Specializations

The Department of Mathematics, Physics, Electrical Engineering and Computer Science covers the

following five specializations. The awarded degree and offered programs are listed next to each specialization.

- Mathematical Sciences: Doctor (Science), Science Degree Program
- Physics: Doctor (Science), Professional Science Degree (PSD) Program
- Applied Physics: Doctor (Engineering), T-type Engineering Degree (TED) Program, or Pi-type Engineering Degree (PED) Program
- Information Systems: Doctor (Engineering), T-type Engineering Degree (TED) Program, or Pi-type Engineering Degree (PED) Program
- Electrical and Computer Engineering: Doctor (Engineering), T-type Engineering Degree (TED) Program, or Pi-type Engineering Degree (PED) Program

#### 2.3.2 Education Programs

## • T-type Engineering Degree (TED) Program (in Applied Physics, Information Systems, and Electrical and Computer Engineering)

The program welcomes students with advanced research and development skills based on their academic background in electrical and computer engineering, information systems, and applied physics, as well as a Master's level expertise in their areas of specialization. They are expected to set their own agenda and flexibly address unknown problems by making comprehensive judgments based on their broad perspectives. Expected qualities also include the ability to communicate their findings to the world and the passion to serve as pioneers for new research.

## • Pi-type Engineering Degree (PED) Program (in Applied Physics, Information Systems, and Electrical and Computer Engineering)

The program welcomes students with the abovementioned academic background at a Master's level who aspire to further enhance their expertise in electrical, electronic, communication, and information engineering; learn how to write a thesis in a studio (workshop); and receive a PhD degree. The program also welcomes PhD candidates who want to write their thesis from the perspective of a socially-relevant practitioner.

## • Professional Science Degree (PSD) Program and Science Degree Program (in Physics and Mathematical Science)

The programs welcome students with an academic background in physics or mathematics at a Master's level, advanced research and development skills, and the ability to communicate their findings to the world. The programs also welcome motivated students who are committed to offering logical solutions to new issues and challenges that they have identified themselves by applying physical or mathematical concepts, thereby leading the way on the new frontiers of research.

#### IV. Specialization and research field of supervisors

For details of each supervisors, refer to the website of the Graduate School of Engineering Science, Yokohama National University (https://www.fse.ynu.ac.jp/english/index.html)

Department Unit	11	Name	Title	Specialization	Research Field	Type of Students Accepted	
·	Unit	Name	ritie	(M:Master's program) (D:Doctoral program)	Research Field	Doctoral	Master's
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	ARAKI Takuto	Professor	Mechanical Engineering(MD) and Energy Materials(D)	Thermo-fluid Dynamics, Mass and heat Transfer, Fuel Cells, Micro Electro Mechanical Systems	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	ISHII Kazuhiro	Professor	Mechanical Engineering(MD) and Aerospace Engineering(M)	Combustion Engineering, Chemical Propulsion	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	YU Qiang	Professor	Mechanical Engineering(MD) and Process Integration(M)	Computational Mechanics, Strength of Materials	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	OZAKI Shingo	Professor	Mechanical Engineering(MD) and Energy Materials(D)	Constitutive Equation, Plasticity, Friction, Self-healing materials, Terramechanics	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	SATO Yasukazu	Professor	Mechanical Engineering(MD)	Mechatronics, Electromechanical Systems, Fluid Power Control, Power Transmission	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	HYAKUTAKE Toru	Professor	Mechanical Engineering(MD)	Computational Fluid Dynamics, Biomechanics, Micro Nano Flow	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	MAEDA Yusuke	Professor	Mechanical Engineering(MD)	Robotics, Manufacturing systems engineering	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	MATSUI Jun	Professor	Mechanical Engineering(MD)	Internal Flow in Fluid Machinery , Computational Fluid Dynamics	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	MARUO Shoji	Professor	Mechanical Engineering(MD) and Process Integration(M)	Ultrahigh-precision 3D printing, Micromachine, Micro Total Analysis System	0	0

# V. Education under special exception regarding educational systems pursuant to Article 14 of the Standards for

# **Establishment of Graduate Schools**

(Special exception for graduate education

# for professional engineers and researchers)

In recent years, professional engineers, researchers, and the like are increasingly feeling the need for continued education or refresher training, as well as doctoral degrees offered by graduate schools. Unfortunately, their opportunities to pursue graduate education based on standard systems are limited because they need to leave their work at least for 2 years to complete master's programs and 3 years to complete doctoral programs.

Meanwhile, Article 14 of the Standards for Establishment of Graduate Schools (Ordinance by the MEXT) stipulates that "education can be conducted by organizing courses and research guidance at night, during specific hours or periods, or in other appropriate manners if a need for special arrangements in graduate programs is recognized." According to the special consideration for studies by professionals in this article, special exceptions in educational systems have been put in place for professional engineers and researchers pursuing studies at our graduate schools.

The rules are as follows (professionals applying to the PED Program should refer to items marked with asterisks (\*)):

- (1) In principle, students must study on campus full time for one year as part of a 2-year master's program and a 3-year doctoral program.
- (2) Special courses are organized during evenings (5:50 p.m.–7:20 p.m.) on weekdays, although students may attend courses offered during any time period including the day.
- (3) During the one-year period of full-time study in a master's program and focusing on master's research, a student should plan their program so that the necessary credits can be acquired in evening courses (5:50 p.m.–7:20 p.m.). During this period, students should take courses during the day only when they are not offered in the evening.
- (4) When preparing to enroll, seek guidance from your supervisor and make a plan to study for 2 years in a master's program and 3 years in a doctoral program.
- (5) If it is impossible to complete your field of study in the defined course term due to your work, you should consider an extended plan with 3–4 years of master's study and 4–5 years of doctoral study.
- (6) Gain approval each time you change your study plan by using the special exception.

By applying the abovementioned special exception, our Graduate School of Engineering Science makes it possible for professionals to limit the period they have to leave their jobs to one year. In this manner, we seek to provide opportunities for engineers and other professionals who have found it difficult to pursue continued or refresher training through graduate studies in normal education systems. We flexibly approve research topics including practical research by companies as long as they are deemed appropriate for master's and doctoral research. This is because another purpose of the special exception is to contribute to the advancement of new science and technologies by stimulating exchange between our university and industry through admitted professionals.

- \* PED Program Special exception for professionals in doctoral programs
  - (1) Follow the instructions from your supervisor to make a plan that covers the subjects that satisfy the completion requirements of your selected module. Then, seek guidance on research at your studio.
  - (2) Courses offered according to the special exception are organized during weekday evenings (5:50 p.m.–7:20 p.m.) or on weekends (7.5 courses). But students can attend courses offered during the day or any other time period.
  - (3) Gain approval each time you change your study plan by using the special exception.

# VI. Students with extended enrollment status

Students with extended enrollment status are those who were approved to complete their studies according to a certain plan for a period longer than the standard duration for completing master's programs (2 years) and doctoral programs (3 years), in consideration of their employment and other circumstances.

Unlike other students, students who are granted extended enrollment status can complete their studies, regardless of the duration, for the same tuition charged for the standard duration for completing master's programs (2 years) and doctoral programs (3 years).

# 1. Eligibility

Eligibility for the extended enrollment status is granted to successful applicants who pass a special screening of professionals who intend to remain employed after admission.

# 2. Application procedure

Use the following procedure to apply for extended enrollment status. <u>Beware that failure to perform any of the following steps leads to disqualification from the review.</u>

## (1) Before application

State your intention to apply for the extended enrollment status when you contact your desired supervisor.

- (2) During application
  - Select the check box for extended enrollment status on your application for admission.
- (3) During admission procedures
  - In order to apply for extended enrollment status, submit documents (i) and (ii) during your admission procedure.
  - (i) Application for extended enrollment status (Annexed Form 1 to be provided along with other documents for the admission procedures only to those who properly performed steps (1) and (2))
  - (ii) Employment certificate or another document to prove your current employment
  - (iii) Submit these documents <u>between Friday, September 6-Thursday, September 12, 2024</u>
     (Admission in October) or <u>between Wednesday, March 5 and Monday, March 10, 2025</u>
     (Admission in April) (<u>no exceptions</u>) along with other admission documents to the Graduate School of Engineering Science Section.

#### 3. Decision on status

Application documents are reviewed to make a decision on the status applied for. The applicant is notified of the decision in mid- October (Admission in October) or mid-April (Admission in April).

#### 4. Enrollment period

Students with extended enrollment status may study at master's programs for more than 2 years and 3 months up to 4 years and at doctoral programs for more than 3 years and 3 months up to 6

years.

Studies can be completed every March, June, September, and December. Specify the planned month and year for completing your studies on your application for extended enrollment status.

#### 5. Annual tuition

Annual tuition for students with extended enrollment status is calculated by multiplying the standard annual tuition by the standard number of years for completing a program, then dividing it by the number of years of enrollment.

(Example calculation 1) Three years of master's study by an applicant granted with the extended enrollment status

(Example calculation 2) Five years of doctoral study by an applicant granted with the extended enrollment status

```
535,800 yen × 3 years / 5 years = 321,480 yen
(Standard (Standard duration of annual tuition) doctoral programs) period of study) (Annual tuition for students with extended enrollment status)
```

# 6. Shortening enrollment period

Students with extended enrollment status can shorten their enrollment period.

In order to shorten your enrollment period, submit an "Application for shortening the enrollment period of a student with extended enrollment status" and gain the necessary approval.

# 7. Extending enrollment period

Enrollment periods can be further extended for students with extended enrollment status under special circumstances.

In order to extend your enrollment period, submit an "Application for extending the enrollment period of a student with extended enrollment status" and gain the necessary approval. Note that the enrollment period can only be extended once.

No one can be enrolled for more than 4 years in a master's program and more than 6 years in a doctoral program. After the extension of enrollment period, the annual tuition is calculated by dividing the remaining amount of tuition after subtracting the paid tuition from the entire standard period of studies (2 years for master's programs and 3 years for doctoral programs).

#### 8. Other matters

If you wish to apply for extended enrollment status, be sure to consult closely with your desired supervisor before applying for admission.

<sup>\*</sup> Ask for more details at the office.

# VII. Use of ChatGPT and other Generative AI Tools

We are urging our students to take note of the precautions concerning the use of generative AI tools including ChatGPT. Regarding the documents necessary for our entrance examination, please prepare and submit them based on the following reminder. In addition, international students must abide by their national and regional policies, laws, and regulations as required.

#### Reminder

Information entered into generative AIs could be used for AI learning or leaked to unintended parties. Furthermore, the source of the information obtained from generative AIs is not clear and may contain fabricated data, biased views, or ethically problematic expressions.

Regarding an application form and other necessary documents, please prepare them in accordance with our Admission Policy and submit them at your own responsibility, ensuring that no wrongdoing is being committed and that no discrepancies in academic skills are suspected after admission.

# VIII. Access

For details on how to get to the University, please visit the "Access" page on the University's website. (https://www.ynu.ac.jp/english/about/access/access/)

- [Note 1] Please note that the sidewalks from Hazawa Yokohama Kokudai Station to the university are very narrow in some places, so please be careful.
- [Note 2] The number of buses and passengers are limited, and buses are greatly affected by traffic congestion and weather conditions. Therefore, we do not recommend the use of buses on the day of the examination.

			Internation	nal student
Application document	Form	Note	Written exam	Professional
Application for admission	1-1	Print out the form after downloading it from YNU Web Application System.		
Photo	-	Attach it to your application for admission.		
Certificate of (expected) completion	-	To be prepared by the president or dean of the graduating (enrolled) school. Any certificate written in a language other than Japanese or English must be accompanied by a Japanese or English translation.		
Certificate of degree	-	The degree obtained must be stated on the certificate. If a copy of a diploma is used as a substitute, the original must be presented at the Graduate School of Engineering Science Section. This certificate is not required from an applicant claiming Eligibility (1).  Any certificate written in a language other than Japanese or English must be accompanied by a Japanese or English translation.		
Transcript	-	To be prepared by the president or dean of the graduating (enrolled) school.  Any certificate written in a language other than Japanese or English must be accompanied by a Japanese or English translation.		
Copy of certificate of eligibility	-	(Only applicants who have passed an eligibility assessment.) The certificate of eligibility is enclosed along with the result of the eligibility assessment.		
Certificate of resident status	-	Foreigners living in Japan should submit copies of both sides of their residence cards. Other foreigners should submit a copy of their passport.		
Curriculum Vitae	19-1	Print out the form after downloading it from YNU Web Application System. This form is not required from an applicant claiming Eligibility (1).		
Provisional Acceptance Letter	19-2	Print out the form after downloading it from the website of the Graduate School of Engineering Science.  Obtain a signature from the prospective supervisor.		
Master's thesis or another thesis, and abstract	_	Submit your master's thesis or another thesis (In the case of Special Screening of Professionals, thesis showing research results so far) as a substitute (1 copy), and an abstract about 2,000 Japanese characters or 500 English words long (1 copy). Applicants expecting to complete master's programs are requested to provide a summary of their research project and the progress made in about 2,000 Japanese characters.		
Record of Research Achievements	16	Print out the form after downloading it from the website of the Graduate School of Engineering Science. List your published papers and research achievements (attach supplemental material if possible).		
(Desired) Research Plan	17	Print out the form after downloading it from the website of the Graduate School of Engineering Science .		
Government sponsorship certificate	-	(Submit only for Japanese government-financed (MEXT) international students) No copies are accepted.		

<sup>\*</sup> Students who have passed an eligibility assessment do not have to resubmit the documents that were submitted for that application.
