October 2022 Application Guidelines

Master's Program (Special Admission for Japanese Government Scholarship Recipients), Yokohama National University Graduate School of Engineering Science

How to Apply

All applicants must send a set of all required documents by post after applying online.

1. Required environment for the application

In order to complete the application procedure, applicants need PCs connected to the Internet, printers and their own email address.

2. Overview of the Application Procedure

Step 1 – Register

1) Visit YNU Web Application System;

https://e-apply.jp/e/ynu/

- 2) Select the preferred Department, etc. according to the guidance of the window.
- 3) Register your name, e-mail address, and other personal information.
- 4) You will receive a confirmation email after registration procedure is completed.

Step 2 – Apply online

- 1) Log in to YNU Web Application System, and fill in all the required information.
- 2) Select payment method for your application fee after you apply.
- 3) Pay the application fee as your choice.
- 4) After you have received an email that your payment was confirmed, print out all the documents via the YNU Web Application System.

Step 3 – Submission of the application documents

- 1) Send all the printed-out application documents and other required certificates by post in the designated application period.
- 2) Application procedure is only completed when YNU received all required documents by post.

Note: You **must** submit printed-out documents by post in order to complete the application. Only filling out the online application is not enough to successfully complete the application procedure.

Please read the instructions of this application guideline and the YNU Web Application System carefully.

[Notice of Special Measurements of Graduate school application procedures due to the outbreak of COVID-19]

YNU has adopted the following special measures only for this entrance examination due to the outbreak of COVID-19.

Depending on the circumstances, there is a possibility of changing examination contents and implementation method. As for the latest information, please check the "Admissions" page on the Graduate School's website (https://www.fse.ynu.ac.jp/english/index.html) regularly.

- 1. Foreign language test (English)
 - For this entrance examination only, regarding of the score certificate by either TOEIC or TOEFL, modify requirements of expiration period as follows.

Before

We accepted a score certificate from a test taken in the last two years counting from the application deadline.

This examination

We accept if you could submit the original certificate on the date of the examination. (Regardless of the expiration date)

• We accept the score of TOEFL iBT Home Edition and TOEFL iBT Paper Edition.

2. Applicants who are affected with COVID-19 or are close contact

In principle, if you meet the conditions mentioned above, you can NOT take the examination on the day.

XAs details below (written part in red), this is the special measures for this entrance examination according to the spread of infection ,COVID-19.

Introduction

This booklet provides application guidelines for admission to master's programs at the Graduate School of Engineering Science (Special Admission for Japanese Government Scholarship Recipients) of Yokohama National University in October 2022.

Chapters I describe the admission procedure, followed by an overview of master's programs and a list of supervisors in Chapters II and III.

Prospective students are requested to carefully read this extensive booklet, find the information that pertains to them, and apply with the correct procedures based on an accurate understanding.

File an application after close consultation with your prospective supervisor or with faculty members serving as contact persons in Table 1 (see page 4).

Go to the website of the Graduate School of Engineering Science, Yokohama National University to find out about the school and see research conducted by each faculty member. https://www.fse.ynu.ac.jp/index.html

[Security export control]

Pursuant to the Foreign Exchange and Foreign Trade Act, Yokohama National University (YNU) stipulates YNU Regulations for Security Export Control to rigorously screen admission of international students with respect to exported goods, technical assistance, and people-to-people exchange. Accordingly, some international students may have limited access to research and educational programs despite their preference. Be aware of such restrictions and consult with your intended supervisor prior to filing your application. International students are requested to sign a pledge to comply with the Foreign Exchange and Foreign Trade Act. For more details, visit the following website of the YNU's Research Initiatives and Promotion Organization.

https://www.ripo.ynu.ac.jp/index/adscreening_jp/

Handling of personal information

In addition to their screening, applicants' performance on admission examinations and the personal information stated in their applications may also be used to prepare materials related to benefits requested by applicants, as well as for studies and research conducted at our university. Any results of such studies and research will be handled so that individuals cannot be identified. Personal information will be used or provided in no other ways.

INDEX

Ι	Admission Guidelines	•••p.5
П	Overview of Master's Programs	•••p.17
Ш	Specialization and research field of supervisors	•••p.22

Note on terminology: In these admission guidelines, "master's program" refers to the first two years of a graduate program and "doctoral program" refers to the last three years of a graduate program.

Screening process

Table 1 Faculty members to consult with regarding respective specializations.

Department	Unit/ Specialization	Contact persons	
	Mechanical Engineering / Mechanical Engineering, Aerospace Engineering	Associate Prof. SHINOZUKA Jun shinozuka-jun-yx@ynu.ac.jp	
Mechanical Engineering, Materials Science, and Ocean Engineering	Materials Science Frontier/ Materials Science Frontier, Aerospace Engineering	Associate Prof. MAENO Tomoyoshi maeno-tomoyoshi-yf@ynu.ac.jp	
	Systems Design for Ocean-Space/ Systems Design for Ocean-Space, Aerospace Engineering	Associate Prof. HIGUCHI Takehiro higuchi-takehiro-cy@ynu.ac.jp	
Chemistry and Life	Advanced Chemistry/ Chemistry, Applied Chemistry, Energy and Sustainable Chemistry	Associate Prof. KAWAMURA Izuru kawamura-izuru-wx@ynu.ac.jp	
Science	Chemistry Applications and Life Science/ Chemistry Applications and Life Science, Energy and Sustainable Chemistry	Associate Prof. NITTAMI Tadashi nittami-tadashi-gs@ynu.ac.jp	
	Mathematical Sciences/ Mathematical Sciences	Prof. KAJIWARA Takeshi kajiwara-takeshi-rj@ynu.ac.jp	
Mathematics, Physics, Electrical Engineering and Computer Science	Physics/ Physics	Associate Prof. SHUDO Ken-ichi shudo-ken-ichi-jw@ynu.ac.jp	
	Electrical and Computer Engineering/ Applied Physics, Information Systems, Electrical and Computer Engineering	Associate Prof. SUGIMOTO Chika sugimoto-chika-zb@ynu.ac.jp	

* Units are categories for conducting entrance examinations. Admitted students are assigned to one of the above specializations.

* Before filing your application, consult with the faculty member in charge of your desired field of study or faculty members serving as contact persons.

I Admission Guidelines for

Japanese Government Scholarship Recipients

1. Number of students admitted

Department	Unit*	Specialization	Educational program	Number of students admitted	
Mechanical	Mechanical Engineering	Mechanical Engineering Aerospace Engineering	TED or PED		
Engineering, Materials Science, and Ocean	Materials Science Frontier	Materials Science Frontier Aerospace Engineering	TED or PED	A few	
Engineering	Systems Design for Ocean-Space	Systems Design for Ocean-Space Aerospace Engineering	TED or PED		
Chamisters and	Advanced Chemistry	anced mistry Sustainable Chemistry			
Life Science	Chemistry	Chemistry Applications and Life Science	TED or PED	A few	
	Life Science	Energy and Sustainable Chemistry	TED		
	Mathematical Sciences	Mathematical Sciences SD			
Mathematics,	Physics	Physics	PSD		
Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	Applied Physics Information Systems Electrical and Computer Engineering	TED or PED	A few	

* Units are categories for conducting entrance examinations. Admitted students are assigned to one of the above specializations.

2. Eligibility

Of the Japanese Government Scholarships [Note 1], Eligibility is acknowledged for applicants with any of the following profiles:

- (1) Graduates or prospective graduates (prior to admission to our graduate school) from universities defined in Article 83 of the School Education Act
- (2) Applicants who have completed or are expected to complete (prior to admission to our

graduate school) 16 years of school education in another country

- (3) Applicants who have completed or are expected to complete (prior to admission to our graduate school) 16 years of school education in Japan by taking correspondence courses offered by foreign schools
- (4) Applicants who have completed or are expected to complete (prior to admission to our graduate school) programs in Japan specified by the Minister of Education, Culture, Sports, Science and Technology among educational facilities that are recognized as universities according to the school education systems of other countries (completion of such programs must be recognized as completion of 16 years of school education in those countries)
- (4) -2 At the relevant university or other overseas school (limited to institutions accredited by the party recognized by the country's government or relevant institutions, or those designated to be such by the Minister of MEXT, in regard to comprehensive education and research activities), you have received a degree corresponding to a bachelor's degree through the completion of three or more years of study (including the completion of the relevant study in Japan of correspondence courses from the relevant overseas schools and the completion of coursework at academic institutions positioned in the education system of the relevant country designated in the preceding item).
- (5) Applicants whose academic achievements were assessed individually by our graduate school and are acknowledged to be comparable or superior to graduates from universities, and who will reach age 22 by the time they enroll in our graduate school [Note 2,3]
- [Note 1] At the time of application, it is a Japanese Government Scholarship (Research Student), or it is decided to adopt it.
- [Note 2] Eligibility (5) can be claimed by persons who cannot claim Eligibility (1)–(4) -2, but whose academic capacity is recognized to be comparable or superior to a university graduate after individual assessment of their eligibility by our graduate school, and who will be over 22 years of age by the time they enroll in our graduate school.
 - * Typically, applicants claiming eligibility as well as international students who graduated universities that do not require 16 years of study and either have or will have conducted at least one year of research as research students or researchers at Japanese or foreign universities, inter-university research institutes, or comparable research institutes prior to admission to our graduate school
- [Note 3] Applicants wishing to claim Eligibility (4) -2 and (5) must first undergo an eligibility assessment. Consult with faculty members of your desired field and submit the following documents in an envelope to the Graduate School of Engineering Science Section between <u>Monday, May 16 and Wednesday, May 18, 2022</u>. Application documents are accepted by post or directly at the section office as long as they meet the deadline. (The section office is open from 9:00 a.m. until 5:00 p.m. except for a break from 12:45 p.m. to 1:45 p.m.)

[Documents submitted by applicants claiming Eligibility (4) -2 and (5)]

[1] Detailed statement of application documents (Attachment 1)

[2] Application for certificate of eligibility (Form 12)

[3] Eligibility Accreditation Record (Form 13)

[4] Certificate of (expected) graduation or enrollment period from the most recent educational level

[5] Transcript from the most recently completed educational level

[6] Record of Research Achievements (Form 16)

[7] (Desired) Research Plan (Form 17)

[8] An addressed return envelope (Size-L3) with 354 yen worth of stamps for express mail

The eligibility assessment is conducted by the Graduate School of Engineering Science, Yokohama National University. The result is delivered by post on <u>Monday, May 30, 2022</u>. If your eligibility is recognized, proceed by applying within the specified period. If you have any questions, contact the Graduate School of Engineering Science Section.

3. Application procedure

After applying online, enclose the application documents (Please see below 4) in a Size-2 envelope ($24 \text{ cm} \times 33.2 \text{ cm}$). Download the label for filing an application (Form 30) from YNU Web Application System. Attached the filled-out label to the envelope and send it via registered mail.

3-1.Online Application

The online application form must be completed during the period <u>between Friday, May 27,</u> 2022 and Tuesday, June 7, 2022.

YNU Web Application System URL: https://e-apply.jp/e/ynu/

[Note]

1) Please note that an error message will show if there is no transmission for 60 minutes.

2) To temporarily suspend the input work in the Web application system, click "Save

temporarily" Please log out. After re-logging in, input can be resumed. Other methods Input operation will be canceled if you interrupt the input work with.

3) If you have any questions about YNU Web Application System, please contact the following.

DISCO Inc. Learning and Education Application Service Support Center TEL : 0120-202079 (Reception time : <u>from Monday to Friday</u>, 10:00 - 18:00) Email : cvs-web@disc.co.jp

Only filling out the online application is not enough to successfully complete the application procedure. Send all the application forms printed out and other required materials by post. Please see below 3-2 to 4.

3-2. Application by post

Submit your application documents by registered mail between Friday, June 3 and Thursday,

June 9, 2022.

Applications are only accepted by registered mail and only during the application period. No direct applications are accepted, nor is application by email.

Send your application as early as possible keeping in mind the time required for delivery by the postal service lest it reach us after the deadline and be rejected. As an exception, an application sent by registered express mail that is postmarked by the originating post office by Wednesday, June 8, 2022 will be accepted even if it reaches us after the deadline.

- [Note 1] Some post offices do not provide postal services on Saturdays, Sundays, and holidays. Make sure to check the schedule of your local post office.
- [Note 2] Applicant who lives in abroad should send application documents by post through representative who lives in Japan. In the case of sending documents from abroad as needed, please send by recorded mail such as EMS (Express Mail Service) to reach us no later than <u>June 9, 2022</u>. [by due date without fail] However, return address is only in Japan.
- [Note 3] We accept the application documents at the reception counter only through academic supervisor who gave provisional acceptance letter to applicant who lives in abroad.

3-3. Address for filing an application

Graduate School of Engineering Science Section Yokohama National University 79-5 Tokiwadai, Hodogaya-ku, Yokohama, 240-8501 JAPAN

4. Application documents

Necessary designated forms should be downloaded from the YNU Web Application System and the Graduate School's website. Be sure to print them only on <u>one side</u> of <u>white A4-sized</u> <u>paper</u>.

Application	Note	Form

certificate in the application, copies are not acceptable					

[Note] Exemption from submission of certain documents

Applicants claiming Eligibility (4) -2 and (5) do not need to resubmit documents that have already been submitted for the application for certificate of eligibility

5. Admission ticket for examination

We inform you by e-mail that we have officially accepted the application by <u>Wednesday, June 22, 2022</u>. In accordance with the notes stated in the e-mail, please login to YNU Web Application System and print out the Admission ticket for examination. Please attach the same photo as the photo attached to the Application for admission on the printed Admission ticket and bring it on the examination day.

[Note]

You <u>must not</u> write anything on both the front and the back of your admission ticket.

6. Screening methods

Academic abilities are tested based on the score from an English proficiency tests (either TOEIC or TOEFL), written examinations on Subject I and Subject II, along with review of application documents and interviews.

Go to 8(1) to find out how the written examinations are conducted. During interviews, applicants are requested to present their past research and answer questions to judge their suitability to our programs. Applicants who miss a written examination on Subject I or II or the interview, or if they fail to submit valid TOEIC or TOEFL score certificates will not be admitted.

Date	Subject	Score	Remarks
-	English	100	Screening is based on original score certificates of TOEIC or TOEFL.
	Subject I	200	10:30-12:30
Tuesday, August 23	Subject II	200	13:30–15:30 (Except for Unit of Advanced Chemistry. Date and venue for Oral examination will be specified by the announcement of the assigned examination room (see below))
Tuesday, August 23 to Wednesday, August 24	Interview	-	Date and venue for examination will be specified by the announcement of the assigned examination room (see below).

7. Schedule for examination and interview

• Examinees must enter their assigned rooms 20 minutes prior to their written examinations.

- Score certificates of TOEIC or TOEFL (original only—copies and printouts of downloaded PDFs are not acceptable) are collected during the examination on Subject I.
- International students are permitted to use language dictionaries exclusively for examination in academic subjects, but no electronic dictionaries are allowed.
- International students may answer questions in English in examinations on academic subjects and interviews.
- The written examination and interview are conducted on the campus of the Yokohama National University in Tokiwadai, Hodogaya-ku, Yokohama.
- Room assignment will be posted on YNU Web Application System <u>by Friday, August 5, 2022</u>. (YNU Web Application System URL: https://e-apply.jp/e/ynu/)

8. Examination

Unit	Subject I (200 points)	Subject II (200 points)
Mechanical Engineering	 [1] Mathematics (50 points) [2] Thermodynamics (50 points) [3] Material mechanics (50 points) A total of 150 points are converted into 200 points 	 Mechanical dynamics (50 points) Hydrodynamics (50 points) Control engineering (50 points) A total of 150 points are converted into 200 points
Materials Science Frontier	 [1] Analysis (differentiation, integration, and differential equations) [2] Linear algebra (matrices and their applications, and simultaneous linear equations) [3] Mechanics [4] Physical chemistry (thermodynamics) [5] Statistical physics 5 questions in total (40 points each) 	 [1] Material mechanics [2] Solid-state electron theory [3] Crystal plasticity [4] Metallography I (crystal, phase diagrams, and related fields) [5] Metallography II (diffusion, recovery, recrystallization, phase transformation, and related fields) 5 questions in total (40 points each)
Systems Design for Ocean-Space	 Analysis (differentiation, integration, and differential equations) Linear algebra (50 points) Rigid-body dynamics (50 points) A total of 150 points are converted into 200 points 	 Hydrodynamics (50 points) Material dynamics (50 points) Vibration engineering (50 points) Vibration engineering (vessel statics and stability) (50 points) Aerospace engineering (mechanics of mass points of aircraft and cosmonautic vehicles) (50 points) Answer 3 questions out of 5 options. A total of 150 points are converted into 200 points
Advanced Chemistry	 [1] Mathematics (analysis, linear algebra, and differential equations) [2] Basic inorganic chemistry [3] Basic analytical chemistry [4] Basic physical chemistry [5] Basic organic chemistry 5 questions in total (40 points each) 	Oral examination is conducted on the basic knowledge of overall chemistry as well as the specialized knowledge related to the intended research field and a submitted Summary of research to date and research plan (200 points)

(1) Screening by written examination: Academic subjects for examination

		-
Chemistry Applications and Life Science	 Mathematics involving linear algebras, analysis, and differential equation Basic chemistry I involving basic inorganic chemistry, basic analytical chemistry, basic physical chemistry, and basic organic chemistry Basic chemistry II involving basic inorganic chemistry, basic analytical chemistry, basic analytical chemistry, basic chemistry, and basic organic chemistry, and basic organic chemistry Basic biological engineering 4 questions in total (50 points each) 	 Chemical engineering Material dynamics and material engineering Chemistry involving physical chemistry and inorganic chemistry Life Science involving bioscience, molecular biology and cellular biology Biological Engineering involving biological engineering, medical engineering, and artificial organs Answer 3 questions (50 points each) out of 5 questions Total 150 points are converted to 200 points
Mathematical Sciences	 [1] Linear algebra (50 points) [2] Calculus (50 points) [3] Class (50 points) [4] Topology (50 points) 	 [1] Algebra (50 points) [2] Geometry (50 points) [3] Analysis (50 points) [4] Probability and statistics (50 points)
Physics	Mathematics (questions are asked from linear algebra, analysis and differential equation) (200 points)	Physics (questions are asked from dynamics, electromagnetism, quantum mechanics and thermal and statistical dynamics) (200 points)
Electrical and Computer Engineering	[1] Linear algebras (100 points)[2] Calculus (100 points)	 [1] Electromagnetics (50 points) [2] Circuit theory (50 points) [3] Logic circuit (50 points) [4] Algorithm (50 points)

(2) Instructions for examination on academic subjects

Unit	Instruction
Mechanical Engineering	None
Materials Science Frontier	None
Systems Design for Ocean-Space	None
Advanced Chemistry	Alpha calculators without programming functions may be used.
Chemistry Applications and Life Science	Alpha calculators without programming functions may be used.
Mathematical Sciences	None
Physics	None
Electrical and Computer Engineering	None

9. TOEIC and TOEFL scores

The score certificates from the following tests are reviewed in the examination.

Examined test	Score certificate to be	Official website
TOEIC Listening & Reading Test (public test)	Official Score Certificate	TOEIC (<u>http://www.toeic.or.jp/</u>)
TOEFL-iBT TOEFL iBT Home Edition TOEFL iBT Paper Edition	Test Taker Score Report ⁄ Examinee Score Report	TOEFL (<u>https://www.ets.org/toefl/</u>)

- * <u>Performance in TOEIC Bridge, TOEIC Speaking & Writing Test, TOEFL-PBT or</u> <u>institutional testing programs such as TOEIC IP and TOEFL ITP is not acknowledged.</u>
- * <u>Score certificates from TOEFL need to be submitted on the date of the examination. Our</u> <u>university does not accept any score certificates sent directly from ETS.</u>
- Submit a score certificate from TOEIC or TOEFL <u>on the day of your examination</u> (<u>Original only, no copies are accepted. The same rule applies elsewhere.</u>). Score certificates are collected during the examination on Subject I for screening by written examination.
- Submit an original score certificate on the date of the examination regardless of the expiration date.
 from a test taken in the last two years counting from the application deadline. For admission in October 2022, we accept score certificates from tests taken between June 10, 2020 and June 9, 2022. If you have taken multiple tests, submit the certificate with the best total score. Applicants who submit invalid score certificates or fail to submit certificates at the designated time during the examination will not be admitted.
- [About TOEFL score] Graduate School of Engineering Science does not recognize "My Best Scores" written on "Test Taker Score Report".
- \bigcirc Submit a score certificate with <u>a photo of your face</u>.
- \bigcirc TOEIC scores are converted according to the following table into a scale of 100 points and are counted as the examination on foreign language (English).

TOEIC	Conversion method	Foreign language (English)	
349 points or less	0	0 points	
350–500 points	(TOEIC – 350) / 3	0–50 points	
500–800 points	(TOEIC – 500) /6 + 50	50–100 points	
801 points or more		100 points	

Conversion method for TOEIC scores

 \bigcirc TOEFL-iBT scores are converted according to the following table into a scale of 100 points

and are counted as the examination on foreign language (English).

T0EFL-i	Foreign								
BT	language (English)								
~ 90	100	76	84	$63 \sim 62$	66	51	47	41	18
89	99	$75 \sim 74$	82	61	64	$50 \sim 49$	43	40	15
88	98	$73 \sim 72$	80	$60 \sim 59$	63	48	40	39	12
$87 \sim 86$	96	71	78	58	61	47	38	38	7
$85 \sim 84$	95	$70 \sim 69$	75	57	59	46	34	$37 \sim 36$	2

83	92	68	74	56	56	45	31	$35\sim$	0
82~81	90	$67 \sim \!\!\!\!\sim 66$	73	$55 \sim 54$	55	44	28		
$80 \sim 79$	88	65	71	53	53	43	24		
$78 \sim 77$	87	64	68	52	51	42	21		

 $\bigcirc\$ Scores are rounded to the nearest whole number.

 $\bigcirc\$ Submitted score certificates will not be returned to applicants.

10. Announcement of successful applicants

Thursday, September 8, 2022 around 4:00 p.m.

Acceptance letters are sent to successful applicants by post. In addition, registration numbers of successful applicants are posted on the website of the Graduate School of Engineering Science (https://www.fse.ynu.ac.jp/index.html).

[Note 1] The acceptance letter is the sole document entailing our official acceptance.

[Note 2] We do not respond to any inquiries regarding the outcome of the examination via phone calls and so forth.

11. Admission Period

(1) Admission Period : Friday, September 9– Thursday, September 15, 2022

(2) Admission fee and Tuition fee : not charged to Japanese Government Scholarships.
 Applicants who do not complete the necessary procedures during the admission period
 will be considered to have withdrawn from admission.

12. Prior consultation by applicants who need special consideration for their examination or studies

Prior to application, any applicants with physical or mental disabilities (including those not listed in the following table) who require special consideration for their examination or studies must declare that fact to the Graduate School of Engineering Science Section using the form below.

Applicants who experienced accidents or unexpected trouble must also immediately declare any need for special consideration for their examination or studies.

Please contact us if you are not sure what classification applies to your situation.

iniajoi cacegoines	
Classification	Degree of impairment
Visual impairment	Visual acuity of both eyes is less than 0.3 or an advanced impairment of eye functions other than vision which makes it difficult or impossible to recognize normal letters and figures even with the use of magnifying glasses or the like
Hearing impairment	Both ears with audible level of 60 dB or greater such that it is difficult or impossible to understand a person's normal speaking voice even with hearing aids or the like

[Major categories]

	1. Orthopedic impairment that makes it difficult or impossible to					
Orthopedic	walk, write, or perform other daily activities on campus even with					
imnairment	the use of adaptive equipment					
mpanment	2. Orthopedic impairment not as severe as above, which nevertheless					
	requires constant medical observation and guidance					
	1. Chronic respiratory disorders, kidney disorders, neurological					
D h 14h	disorders, malignant neoplasms, and other diseases that constantly					
Poor nealth	require medical assistance or regimen					
	2. Physical weakness that requires constant regimen					
Developmental	Special needs associated with autism, Asperger's syndrome, pervasive					
	developmental disorder, learning disability, or attention-deficit					
impairment	hyperactivity disorder					

(Form) A4 vertical

Att.: Yokohama National University

Date (YYYY/MM/DD):

Name in *katakana*: Name: Date of birth: Address: Phone:

I hereby request consultation regarding my impairment before applying for admission to Yokohama National University.

- 1. Intended specialization, unit, department, and school
- 2. Type and degree of physical impairment
- 3. Requested special consideration for taking the examination
- 4. Requested special consideration for studies after enrollment
- Special consideration made by the school where the applicant was enrolled
 Other

(Attachment) Copy of medical certificate or physical disability certificate, and another supporting document

[How to apply]

- (1) Prepare your application by following the above example and attach a copy of a medical certificate or physical disability certificate, and another supporting document.
- (2) Consult with us as early as possible before filing your application as it may take time for us to make accommodations for your request depending on its nature.

 (3) Place of submission and inquiry Graduate School of Engineering Science Section, Yokohama National University 79-5 Tokiwadai, Hodogaya-ku, Yokohama, 240-8501 JAPAN Phone: +81-45-339-3817

13. Reminders

- (1) Inadequately prepared application documents may be rejected.
- (2) No changes may be introduced to documents already submitted for the application procedure
- (3) Application documents are not retuned.

- (4) Enrollment may be cancelled even after admission if false statements on application documents come to light.
- (5) Depending on your performance in the entrance examination, you may not be assigned to your desired specialization, educational program or supervisor. Consider your other choice.
- (6) Diplomas and transcripts submitted by applicants may be examined by a certification organization specified by YNU at the applicants' expense when YNU deems it necessary to have a third party authenticate them.
- (7) Any changes related to the entrance examination will be notified to applicants along with announcements on the website of the Graduate School of Engineering Science.
- (8) Always carry your admission ticket for examination on the day of examination.
- (9) Applicants are not admitted if they fail to take the assigned examinations on Subject I or II, or the interview for screening, or if they fail to submit valid TOEIC or TOEFL score certificates.
- (10) Switch off your mobile phones and other devices and put them in your bag before entering your examination room.

II Overview of Master's Programs

1. Purpose of Education and Research at our Graduate School

Graduate School of Engineering Science at YNU aspire to serve as an international hub of practical science. The effort is led by the Graduate School of Engineering Science, which aims to foster globally competitive scientists and engineers who have sound ethics and enterprising spirits to learn beyond their areas of expertise. We hope to further strengthen and develop the manufacturing industry and other industries by nurturing people who are well versed in both science and engineering.

The master's programs at the Graduate School of Engineering Science offer specialized courses for students to develop their expertise and skills, as well as a wide range of classes in fundamental science designed to help them build a solid foundation, such as courses in mathematical science, school-wide core courses, and department-wide core courses. Students are encouraged to take initiative in their research in order to develop original technologies and acquire new knowledge. In this process, they grow into sophisticated and professional engineers and researchers who can make comprehensive judgments flexibly and respond to unknown problems based on their broad perspectives.

2. Description of Departments and Profile of Graduates

2.1 Department of Mechanical Engineering, Materials Science, and Ocean Engineering

Mechanical engineering, material engineering, naval architecture and ocean engineering, and aerospace engineering all seek to build advanced systems and highly functional materials by combining elementary technologies while incorporating basic principles. This department helps students understand these basic principles, develop their scientific intuition in applying those principles, and cultivate the ability to adapt to technical innovation in this globalized world. The learning and research activities in the department seek to build advanced systems and create highly functional materials by bringing together elementary technologies, designing technologies to make the most of elements, and creating production technologies that maintain the balance between our society and the environment. In this manner, our department produces globally-competitive engineers and researchers with practical and sophisticated skills.

2.1.1 Specializations

The Department of Mechanical Engineering, Materials Science, and Ocean Engineering covers the following four specializations. The awarded degree and offered programs are listed next to each specialization.

• Mechanical Engineering: Master (Engineering), T-type Engineering Degree (TED) Program, or Pi-type Engineering Degree (PED) Program

• Materials Science Frontier: Master (Engineering), T-type Engineering Degree (TED) Program, or Pitype Engineering Degree (PED) Program

• Systems Design for Ocean-Space: Master (Engineering), T-type Engineering Degree (TED) Program, or Pi-type Engineering Degree (PED) Program

• Aerospace Engineering: Master (Engineering), T-type Engineering Degree (TED) Program, or Pi-type Engineering Degree (PED) Program

2.1.2 Education Programs

Two different types of education programs are offered at the Department of Mechanical Engineering, Materials Science, and Ocean Engineering to obtain degrees in the specializations listed in the previous section.

• T-type Engineering Degree (TED) Program (in Mechanical Engineering, Materials Science Frontier, Systems Design for Ocean-Space, and Aerospace Engineering)

The TED program in Mechanical Engineering welcomes students with basic skills in mechanical engineering who seek to gain advanced skills and expertise in building advanced machines and mechanical systems. The program in Materials Science Frontier welcomes students with basic skills in material engineering and science who seek to learn advanced technologies related to material mechanics and processing, material strength and structure, material function and composition, and material physics and chemistry. The program in Systems Design for Ocean-Space welcomes students with basic skills in naval architecture and ocean engineering who are keen to apply advanced technologies for using marine space and for combining basic technologies. These programs also recruit students who seek to learn aerospace engineering technologies for using the atmosphere and space based on their basic knowledge on mechanical, material, and naval architecture and ocean engineering.

• Pi-type Engineering Degree (PED) Program (in Mechanical Engineering, Materials Science Frontier, Systems Design for Ocean-Space, and Aerospace Engineering)

The PED program in Mechanical Engineering welcomes students with basic skills in mechanical engineering who seek to gain practical skills to work globally while addressing issues involving mechanical engineering. The program in Materials Science Frontier welcomes students with basic skills in material engineering and science who seek to learn practical technologies involving material mechanics and processing, material strength and structure, material function and composition, and material physics and chemistry. The program in Systems Design for Ocean-Space welcomes students with basic skills in naval architecture and ocean engineering who are keen to engage in practical and technical challenges involved in the planning, construction, and operation of devices for using marine space. These programs also recruit students who seek to work with practical challenges involving aerospace engineering for using the atmosphere and space based on their basic knowledge on mechanical, material, and naval architecture and ocean engineering.

2.2 Department of Chemistry and Life Science

Today's material civilization is built upon comprehensive and advanced science technologies for developing and applying functional materials based on unique natural science. The important keys for the sustainable development of civilization include the pursuit of exceptional substances and materials, the construction of good production systems, and the understanding and application of life phenomena. To achieve this, a comprehensive system must be built beyond the conventional academic framework of chemistry to incorporate mathematics and information science. This department focuses on chemistry and life science and produces internationally-minded professionals who can adapt to evolving science technologies with their basic competency and comprehensive skills to address a wide range of issues involving nature research, manufacturing, energy, and life forms by applying principles and their knowledge.

2.2.1 Specializations

The Department of Chemistry and Life Science covers the following four specializations. The awarded degree and offered programs are listed next to each specialization.

- · Chemistry: Master (Science), Professional Science Degree (PSD) Program
- Applied Chemistry: Master (Engineering), T-type Engineering Degree (TED) Program
- Energy and Sustainable Chemistry: Master (Engineering), T-type Engineering Degree (TED) Program
- Chemistry Applications and Life Science: Master (Engineering), T-type Engineering Degree (TED) Program, or Pi-type Engineering Degree (PED) Program

2.2.2 Education Programs

Three different types of education programs are offered at the Department of Chemistry and Life Science to obtain degrees in the specializations listed in the previous section.

• T-type Engineering Degree (TED) Program (in Applied Chemistry, Energy and Sustainable Chemistry, and Chemistry Applications and Life Science)

The program requires basic knowledge in inorganic chemistry, analytical chemistry, physical chemistry, organic chemistry, and other essential fields related to materials, as well as in material engineering, energy chemistry, catalytic chemistry, polymer chemistry, biochemistry, chemical engineering, bioengineering, and so forth. Students are encouraged to delve deep into their own research questions to search for molecules and materials that produce new functions; build necessary production systems for such materials; create new materials and construct processes that facilitate energy conversion and use; and unravel and apply life phenomena. Students are taught to develop basic research and development skills to flexibly respond to unknown problems by making comprehensive judgments based on their broad perspectives. This program produces professionals with basic skills in chemistry, energy chemistry, and bio and life science who can pay attention to other research areas beyond their field and adapt to evolving science technologies.

• Pi-type Engineering Degree (PED) Program (Chemistry Applications and Life Science)

The program consolidates basic knowledge in inorganic chemistry, analytical chemistry, physical chemistry, organic chemistry, and other essential fields related to materials, as well as in material engineering, chemical engineering, bioengineering, biochemistry, and so forth. The main emphasis is placed on the development of basic skills for pursuing exceptional substances and materials, designing production systems and devices, and integrating their basic knowledge to establish practical technologies

to unravel and apply life phenomena. This program covers chemical engineering, energy chemistry, material engineering, bio and life science, and other related areas. It produces globally competitive professionals with practical skills who can adapt to evolving science technologies while exercising their basic skills to apply principles and available information in an integrated manner and respond to a wide range of challenges involving manufacturing, energy, and life forms.

• Professional Science Degree (PSD) Program (Chemistry)

In this program, students study designing principles and synthetic methods of molecules and materials and learn about chemical phenomena and properties in order to develop basic skills for making scientific research in such fields of chemistry as inorganic chemistry, analytical chemistry, physical chemistry, organic chemistry, catalytic chemistry, polymer chemistry, electrochemistry, and biochemistry. The additional studies in organic and inorganic material engineering, catalytic engineering, bioengineering, and application of chemistry and life sciences to engineering are intended to build their engineering basics in chemistry. The integrated style of education produces professionals with solid basic skills who can conduct scientific research, as well as contribute to the development of crucial materials for the next generation based on an understanding of basic science in terms of physics and science-oriented chemical industries.

2.3 Department of Mathematics, Physics, Electrical Engineering and Computer Science

The innovation in information and communication technology that has utterly transformed our society owes its remarkable development to electrical, electronic, communication, and information engineering. Further paradigm shifts and innovation require integrated and interdisciplinary understanding in extensive fields from basic science in mathematics and physics to applied engineering. The master's program at the Department of Mathematics, Physics, Electrical Engineering and Computer Science produces globally-competitive, practical, and creative engineers and researchers by offering learning and research opportunities in a wide area including mathematical science, physics, applied physics, as well as electrical, electronic, communication, information, and medical information engineering.

2.3.1 Specializations

The Department of Mathematics, Physics, Electrical Engineering and Computer Science covers the following five specializations. The awarded degree and offered programs are listed next to each specialization.

- Mathematical Sciences: Master (Science), Science Degree Program
- Physics: Master (Science), Professional Science Degree (PSD) Program
- Applied Physics: Master (Engineering), T-type Engineering Degree (TED) Program, or Pi-type Engineering Degree (PED) Program
- Information Systems: Master (Engineering), T-type Engineering Degree (TED) Program, or Pi-type Engineering Degree (PED) Program
- Electrical and Computer Engineering: Master (Engineering), T-type Engineering Degree (TED)

2.3.2 Education Programs

• T-type Engineering Degree (TED) Program (in Applied Physics, Information Systems, and Electrical and Computer Engineering)

The program welcomes students with the abovementioned basic academic background who want to develop their expertise further in order to become globally competitive engineers and researchers who can make comprehensive judgments flexibly and respond to unknown problems based on their broad perspectives.

• Pi-type Engineering Degree (PED) Program (in Applied Physics, Information Systems, and Electrical and Computer Engineering)

The program welcomes students with the abovementioned basic academic background who aspire to become engineers and researchers who can respond practically to challenges faced by our diversified and advanced industrial society.

• Professional Science Degree (PSD) Program and Science Degree Program (in Physics, and Mathematical Science)

The program welcomes students who are able to apply their basic knowledge in physics and mathematical science; aspire to gain expertise in the field they choose and a broader understanding in related fields; and ultimately become globally competitive engineers and researchers.

April 2022 Revised

II Graduate School of Engineering Science Specialization and research field of supervisors

For details of each supervisors, refer to "Admissions Information" on the website of the Graduate School of Engineering Science, Yokohama National University (https://www.fse.ynu.ac.jp/english/index.html).

				Specialization		Language	Type of Stude	nts Accepted
Department	Unit	Name	litle	(M : Master s program) (D : Doctoral program)	Research Field	Requirements	Doctoral	Master's
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	AKINIWA Yoshiaki	Professor	Mechanical Engineering(MD)	Strength of Materials, Fracture Mechanics, Stress and Strain Analysis	Japanese or English	-	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	ARAKI Takuto	Professor	Mechanical Engineering(MD)	Thermo-fluid Dynamics, Mass and heat Transfer, Fuel Cells, Micro Electro Mechanical Systems	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	ISHII Kazuhiro	Professor	Mechanical Engineering(MD) and Aerospace Engineering(M)	Combustion Engineering, Chemical Propulsion	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	YU Qiang	Professor	Mechanical Engineering(MD)	Computational Mechanics, Strength of Materials	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	OZAKI Shingo	Professor	Mechanical Engineering(MD)	Constitutive Equation, Plasticity, Friction, Self-healing materials, Terramechanics	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	SATO Yasukazu	Professor	Mechanical Engineering(MD)	Mechatronics, Electromechanical Systems, Fluid Power Control, Power Transmission	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	SANADA Kazushi	Professor	Mechanical Engineering(MD)	Control Engineering	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	NISHINO Koichi	Professor	Mechanical Engineering(MD)	Turbulence, Flow Visualization and Measurement, Utilization of Digital Image Processing Technique	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	HYAKUTAKE Toru	Professor	Mechanical Engineering(MD)	Computational Fluid Dynamics, Biomechanics, Micro Nano Flow	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	MAEDA Yusuke	Professor	Mechanical Engineering(MD)	Robotics, Manufacturing systems engineering	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	MATSUI Jun	Professor	Mechanical Engineering(MD)	Internal Flow in Fluid Machinery , Computational Fluid Dynamics	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	MARUO Shoji	Professor	Mechanical Engineering(MD)	Ultrahigh−precision 3D printing, Micromachine, Micro Total Analysis System	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	INOUE Fumihiro	Associate Prof.	Mechanical Engineering(M)	Advanced Packaging and 3D Integration	Japanese or English	-	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	OTA Hiroki	Associate Prof.	Mechanical Engineering(MD)	Micro/Nano fabrication, Sensor engineering, Soft material	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	KATO Ryu	Associate Prof.	Mechanical Engineering(MD)	Robotics, Medical welfare machine, Rehabilitation engineering, Brain machine interface	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	KITAMURA Keiichi	Associate Prof.	Mechanical Engineering(MD) and Aerospace Engineering(M)	Aerodynamics, Computational Fluid Dynamics, Hypersonic Flow, Multiphase Flow	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	SAKAI Seigo	Associate Prof.	Mechanical Engineering(MD)	Heat Transfer, Numerical Simulation, Radiative Exchange	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	SHINOZUKA Jun	Associate Prof.	Mechanical Engineering(MD)	Cutting, FEM, Dynamic Behavior of Material	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	TAKAO Yoshinori	Associate Prof.	Mechanical Engineering(MD) and Aerospace Engineering(M)	Electric Propulsion, Plasma Application	Japanese or English	0	0
Mechanical Engineering, Materials Science, and Ocean Engineering	Mechanical Engineering	HARA Kensuke	Associate Prof.	Mechanical Engineering(M)	Multibody dynamics, Fluid-structure interaction, Nonlinear vibration	Japanese or English	_	0

Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	TAKEMURA Yasushi	Professor	Applied Physics(MD), Information Systems(MD), and Electrical and Computer Engineering(MD)	Magnetics for Biomedical Applications, Magnetic Sensors	Japanese or English	0	0
Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	BABA Toshihiko	Professor	Applied Physics(MD), Information Systems(MD), and Electrical and Computer Engineering(MD)	Optoelectronics, Nano-photonics, Silicon photonics, IoT sensor	Japanese or English	0	0
Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	HAMAGAMI Tomoki	Professor	Applied Physics(MD), Information Systems(MD), and Electrical and Computer Engineering(MD)	Intelligent Systems, Machine Learning	Japanese or English	0	0
Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	FUJIMOTO Yasutaka	Professor	Applied Physics(MD), Information Systems(MD), and Electrical and Computer Engineering(MD)	Manufacturing Automation, Discrete Event Systems, Motion Control, Robotics, Electrical Machinery	Japanese or English	0	0
Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	YOSHIKAWA Nobuyuki	Professor	Applied Physics(MD), Information Systems(MD), and Electrical and Computer Engineering(MD)	Integrated Circuit, Electronics Devices, Superconductivity Electronics, Quantum Engineering	Japanese or English	0	0
Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	ISHIKAWA Naoki	Associate Prof.	Applied Physics(M), Information Systems(M), and Electrical and Computer Engineering(M)	Mobile Network, Wireless Signal Processing, Space-Time Coding	Japanese or English	_	0
Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	OHTSUKA Kazuhiro	Associate Prof.	Applied Physics(M), Information Systems(M), and Electrical and Computer Engineering(M)	Multimodal Informatics, Social Signal Processing, Communication Data Science	Japanese or English	_	0
Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	OHTSUKI Takashi	Associate Prof.	Applied Physics(M), Information Systems(M), and Electrical and Computer Engineering(M)	Energy systems engineering, Energy and electricity economics, Climate change	Japanese or English	_	0
Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	OYA Takahide	Associate Prof.	Applied Physics(MD), Information Systems(MD), and Electrical and Computer Engineering(MD)	Nanotechnology, Carbon Nanotube, Nonlinear system	Japanese or English	0	0
Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	KUGA Nobuhiro	Associate Prof.	Applied Physics(MD), Information Systems(MD), and Electrical and Computer Engineering(MD)	Microwave Engineering and measurement, Antenna Engineering	Japanese or English	0	0
Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	SHIMONO Tomoyuki	Associate Prof.	Applied Physics(MD), Information Systems(MD), and Electrical and Computer Engineering(MD)	Motion control, Haptics, Mechatoronics, Robotics, Electrical Machinery	Japanese or English	0	0
Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	SUGIMOTO Chika	Associate Prof.	Applied Physics(MD), Information Systems(MD), and Electrical and Computer Engineering(MD)	Perceptual Information Processing, Human Sensing, Medical ICT	Japanese or English	0	0
Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	TSUJI Takao	Associate Prof.	Applied Physics(MD), Information Systems(MD), and Electrical and Computer Engineering(MD)	Power system engineering, Smartgrid, Renewable energy source	Japanese or English	0	0
Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	NAKATA Masaya	Associate Prof.	Applied Physics(MD), Information Systems(MD), and Electrical and Computer Engineering(MD)	Soft computing, Optimization, Data mining	Japanese or English	0	0
Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	NISHIJIMA Yoshiaki	Associate Prof.	Applied Physics(MD), Information Systems(MD), and Electrical and Computer Engineering(MD)	Plasmonics, micro/nanophotonics, Nano Photonics Sensors, Photo-Thermal Energy Conversions	Japanese or English	0	0
Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	MIZUNO Yousuke	Associate Prof.	Applied Physics(M), Information Systems(M), and Electrical and Computer Engineering(M)	Sensing Photonics, Fiber Optics, Nonlinear Optics, Opto- Electronics	Japanese or English	-	0
Mathematics, Physics, Electrical Engineering and Computer Science	Electrical and Computer Engineering	YAMANASHI Yuki	Associate Prof.	Applied Physics(MD), Information Systems(MD), and Electrical and Computer Engineering(MD)	Electron/electric material engineering, Electronic device/electronic equipment	Japanese or English	0	0

Attachment 1 E * No entry required Examinee's number* Date : Day Month, Year

Detailed Statement of Application Documents (Eligibility Assessment) Master's Program at Graduate School of Engineering Science (Japanese Government Scholarship), Yokohama National University

Name			
Unit			

Specialization

Submit this statement as an attachment along with your application documents. Enclose the necessary documents and put a circle in each corresponding check box.

(Check box)

Application document	Form	Note	Eligibility 4-2, 5
Application for certificate of	12	Print out the form after downloading it from the website of the	
eligibility		Graduate School of Engineering Science.	
Eligibility Accreditation Record	13	Print out the form after downloading it from the website of the Graduate School of Engineering Science.	
Certificate of (expected) graduation or enrollment period from the most recent educational level	-	To be prepared by the president or dean of the school where the applicant was or is enrolled.	
Transcript from the school where the applicant was or is enrolled.	-	To be prepared by the president or dean of the school where the applicant was or is enrolled.	
A size-L3 return envelope	-	Write the recipient's name and address on the envelope and affix stamps (354yen). Remember that the recipient must be in Japan.	
Record of Research Achievements	16	Print out the form after downloading it from the website of the Graduate School of Engineering Science.	
(Desired) Research Plan	17	Print out the form after downloading it from the website of the Graduate School of Engineering Science.

Application document	Form	Note	Japanese Government Scholarship
Application for admission	1-1	Print out the form after downloading it from YNU Web Application System.	
Photo	-	Attach them to your application for admission.	
Government sponsorship certificate	_	No copies are accepted.	
Certificate of (expected) graduation	-	To be prepared by the president or dean of the graduating (enrolled) school.	
Certificate of degree	-	The degree obtained must be stated on the certificate. If a copy of a diploma is used as a substitute, the original must be presented at the Graduate School of Engineering Science Section. This certificate is not required from an applicant claiming Eligibility (1).	
Transcript	-	To be prepared by the president or dean of the graduating (enrolled) school.	
Certificate of resident status	-	Foreigners living in Japan should submit copies of both sides of their residence cards. Other foreigners should submit a copy of their passport.	
Curriculum Vitae	19-1	Print out the form after downloading it from the website of YNU Web Application System. This form is not required from an applicant claiming Eligibility (1).	
Provisional Acceptance Letter	19-2	Print out the form after downloading it from the website of the Graduate School of Engineering Science. Obtain a signature from the prospective supervisor.	
Research Plan (Advanced Chemistry)	21	(Only applicants for Advanced Chemistry Unit should submit) Print out the form after downloading it from the Graduate School's website.	

%Students who have passed an eligibility assessment do not have to resubmit the documents that were submitted for that application.

How to reach YNU from Yokohama Station

* For details of Transportation Guide, please see the following URL.

https://www.ynu.ac.jp/english/about/access/access/

Train: Access from Hazawa Yokohama-Kokudai Station (West Gate / North Gate)

OAbout 15 minutes on foot from Hazawa Yokohama-Kokudai Station

Exit Hazawa Yokohama-Kokudai Station, walk about 100 meters along the sidewalk along the Second Ring Expressway frontage road, and turn left.

Cross the crosswalk in front of Hazawa-Hase Park and walk along the right sidewalk.

Go on the right side of Daimaru Bridge. At the end of the bridge, turn right.

Go straight until you reach the end of the road, turn left to follow the road and walk up the hill. (You will see Sugimoto Dental Clinic on your right halfway up.)

Cross the crosswalk at Bus Street and walk to the right along Bus Street until you reach the first T-junction, and turn left.

(West Gate) Go straight through the four-street intersection and walk about 200 meters, and you will see West Gate.

(North Gate) Turn left at the four-street intersection and go about 200 meters along the green fence, and you will see North Gate.
